ORIENTATION

How to study this volume

PURPOSE

Meet 1...f5 with a calm kingside fianchetto and a concrete plan against each Dutch pawn structure.

THE TRAINING LOOP

- First identify Black's defense from pawn placement and move order.
- At every diagram, name the center, the urgent threat, and two candidate moves.
- Hide the recall answer until you have spoken the move and its purpose.
- Replay each line from both sides in Fritz or another board program.
- Review misses after 1, 3, 7, 14, 30, and 60 days.
-

WHAT COMPLETE MEANS HERE

This volume contains 8 units inside a connected White repertoire. It covers the main structural and move-order decisions you need for practical play; the PGN companion makes later updating possible.

STRATEGIC FOUNDATION

Principles 1-3

PRINCIPLE 1

The f-pawn controls e4 but loosens the king and e6 square.

PRINCIPLE 2

A fianchetto challenges the dark-square strategy without forcing tactics.

PRINCIPLE 3

Against the Stonewall, attack the light squares and improve the bad bishop.

VERIFICATION QUESTION

What would have to be true for one of these principles to be wrong in the current position? Check forcing moves before applying a strategic rule.

STRATEGIC FOUNDATION

Principles 4-6

PRINCIPLE 4

Against the Leningrad, watch ...e5 and ...c6-e5 setups.

PRINCIPLE 5

Against the Classical Dutch, White often uses e4 after adequate preparation.

PRINCIPLE 6

Do not attack the king until the center and development support it.

VERIFICATION QUESTION

What would have to be true for one of these principles to be wrong in the current position? Check forcing moves before applying a strategic rule.

ANSWER SECTION

Recall solutions begin here

PROTECT THE TRAINING EFFECT

Do not read a solution until you have committed to a move and purpose. A matching move without the correct reason earns partial credit. If the course move is not the engine's first choice, compare plans rather than treating the engine as a memorization oracle.

ERROR LABELS

M = move-order memory | T = tactical oversight | P = plan misunderstanding | V = visualization | C = calculation | R = rushed recognition

REPAIR RULE

Every miss must produce a question you can use in future games. Example: 'When Black supports d5 with c6, which pawn break or recovery method does my repertoire use?'

VOLUME REVIEW

Make the repertoire usable

REVIEW TASK 1

Reconstruct every branch from the first move without looking.

REVIEW TASK 2

For each branch, explain one Black plan and one White plan.

REVIEW TASK 3

Shuffle the recall positions so the chapter title cannot reveal the answer.

REVIEW TASK 4

Play each starting position against Fritz from both sides.

REVIEW TASK 5

Add mistakes from your own games to the PGN as new training positions.

REVIEW TASK 6

Retest the weakest three branches after 1, 3, 7, 14, 30, and 60 days.

GRADUATION STANDARD

Score at least 80 percent twice, one week apart, and explain every move in plain language. Then maintain the volume through your own games instead of rereading it continuously.
