ORIENTATION

How to study this volume

PURPOSE

Understand how 1.e4 changes the center, which Black reply you are facing, and the prepared destination for every major defense.

THE TRAINING LOOP

- First identify Black's defense from pawn placement and move order.
- At every diagram, name the center, the urgent threat, and two candidate moves.
- Hide the recall answer until you have spoken the move and its purpose.
- Replay each line from both sides in Fritz or another board program.
- Review misses after 1, 3, 7, 14, 30, and 60 days.
-

WHAT COMPLETE MEANS HERE

This volume contains 12 units inside a connected White repertoire. It covers the main structural and move-order decisions you need for practical play; the PGN companion makes later updating possible.

STRATEGIC FOUNDATION

Principles 1-3

PRINCIPLE 1

1.e4 opens the queen and f1 bishop while controlling d5.

PRINCIPLE 2

Rapid development matters because open positions punish lost tempi.

PRINCIPLE 3

A central pawn is valuable only when pieces can support it.

VERIFICATION QUESTION

What would have to be true for one of these principles to be wrong in the current position? Check forcing moves before applying a strategic rule.

STRATEGIC FOUNDATION

Principles 4-6

PRINCIPLE 4

King safety usually comes before a second attack with the same piece.

PRINCIPLE 5

Identify Black's pawn break before beginning your own plan.

PRINCIPLE 6

Use the repertoire as a decision tree rather than a list of tricks.

VERIFICATION QUESTION

What would have to be true for one of these principles to be wrong in the current position? Check forcing moves before applying a strategic rule.

ANSWER SECTION

Recall solutions begin here

PROTECT THE TRAINING EFFECT

Do not read a solution until you have committed to a move and purpose. A matching move without the correct reason earns partial credit. If the course move is not the engine's first choice, compare plans rather than treating the engine as a memorization oracle.

ERROR LABELS

M = move-order memory | T = tactical oversight | P = plan misunderstanding | V = visualization | C = calculation | R = rushed recognition

REPAIR RULE

Every miss must produce a question you can use in future games. Example: 'When Black supports d5 with c6, which pawn break or recovery method does my repertoire use?'

VOLUME REVIEW

Make the repertoire usable

REVIEW TASK 1

Reconstruct every branch from the first move without looking.

REVIEW TASK 2

For each branch, explain one Black plan and one White plan.

REVIEW TASK 3

Shuffle the recall positions so the chapter title cannot reveal the answer.

REVIEW TASK 4

Play each starting position against Fritz from both sides.

REVIEW TASK 5

Add mistakes from your own games to the PGN as new training positions.

REVIEW TASK 6

Retest the weakest three branches after 1, 3, 7, 14, 30, and 60 days.

GRADUATION STANDARD

Score at least 80 percent twice, one week apart, and explain every move in plain language. Then maintain the volume through your own games instead of rereading it continuously.
