

FLANK AND IRREGULAR OPENINGS

King's Indian Attack

ECO A08 | 8 named lines in this code

Featured opening position - gold marks the last move

IS IT A GOOD OPENING?

Good and fully playable. The position remains within a normal opening balance for both sides.

ENGINE SNAPSHOT

-0.01 for White. A shallow opening score is a guide, not a forced result.

GAME CHARACTER

Active and tactical: both sides must calculate forcing moves before following a thematic plan.

WHAT THIS OPENING IS

A08 covers King's Indian Attack. White delays a full central commitment, keeping move-order flexibility while testing how Black occupies the center. The diagram uses the featured line King's Indian Attack: Sicilian Variation.

DEFINING ROUTE

1. Nf3 d5 2. g3 c5 3. Bg2

UNDERSTAND THE POSITION

What both sides are trying to achieve

WHITE'S GOALS

Develop without drifting, influence d5 and e5 from the flank, and strike the center once Black's setup is clear.

BLACK'S GOALS

Take useful central space, develop quickly, and avoid pushing so many pawns that the center becomes a target.

PAWN BREAKS - THE ENGINE OF THE OPENING

Typical levers are c4, d4, e4, or f4 for White; Black often answers with ...d5 or ...e5.

PIECE MAP

Knights usually belong near the center. A fianchettoed bishop is powerful only when its diagonal is kept open. White's g2 bishop makes the long diagonal a strategic asset.

WHAT USUALLY GOES WRONG

The main danger is treating flexibility as permission to waste tempi. Rare first moves still require sound development. The word 'attack' is a name, not a guarantee; complete development before forcing matters.

POSITION SNAPSHOT

Black moves next. Material is level. Central markers: Black pawn on c5, Black pawn on d5.

WHO SHOULD STUDY IT?

Good for curious players who enjoy flexible positions; uncommon branches are best used as supplements, not as a substitute for fundamentals.

COMPLETE CODE CONTENTS

Every named A08 line

This section preserves all 8 names and defining routes assigned to A08 in the source catalogue. Different move orders can reach the same position; learn the structures and goals before memorizing labels.
