

BENONI, BENKO, AND INDIAN STRUCTURES

Indian Defense

ECO A51 | 5 named lines in this code

Featured opening position - gold marks the last move

IS IT A GOOD OPENING?

Playable, but White has a meaningful objective edge. Black needs accurate counterplay.

ENGINE SNAPSHOT

+0.97 for White. A shallow opening score is a guide, not a forced result.

GAME CHARACTER

Sharp and concrete: initiative, development, and king safety outweigh routine positional rules.

WHAT THIS OPENING IS

A51 covers Indian Defense. The center becomes asymmetric: White often owns space, while Black seeks dynamic files, diagonals, and pawn breaks. The diagram uses the featured line Indian Defense: Budapest Gambit.

DEFINING ROUTE

1. d4 Nf6 2. c4 e5

UNDERSTAND THE POSITION

What both sides are trying to achieve

WHITE'S GOALS

Use the space advantage, finish development, support e4, and prepare a central or queenside expansion without overextending.

BLACK'S GOALS

Attack the pawn center with ...e6, ...c5, or ...b5, activate the dark-squared bishop, and create counterplay before White consolidates.

PAWN BREAKS - THE ENGINE OF THE OPENING

White commonly uses e5 or b4; Black's thematic resources include ...e6, ...b5, and sometimes ...f5.

PIECE MAP

White's central pawns need piece support. Black's bishops and rooks become strong when files open on the queenside. The central pawn placement should decide where each bishop and knight belongs.

WHAT USUALLY GOES WRONG

Space is valuable but can become a target. A premature pawn advance may leave weak squares behind it. A gambit is a tactical contract: the sacrificed material must buy concrete time, lines, or targets.

POSITION SNAPSHOT

White moves next. Material is level. Central markers: White pawn on c4, White pawn on d4, Black pawn on e5.

WHO SHOULD STUDY IT?

Good for ambitious players: strategically rich and fully playable, but many lines require comfort with imbalance.

COMPLETE CODE CONTENTS

Every named A51 line

This section preserves all 5 names and defining routes assigned to A51 in the source catalogue. Different move orders can reach the same position; learn the structures and goals before memorizing labels.
