

SEMI-OPEN AND UNCOMMON REPLIES TO 1.E4

Pirc Defense

ECO B07 | 17 named lines in this code

Featured opening position - gold marks the last move

IS IT A GOOD OPENING?

Playable, but White has a meaningful objective edge. Black needs accurate counterplay.

ENGINE SNAPSHOT

+0.81 for White. A shallow opening score is a guide, not a forced result.

GAME CHARACTER

Principled and instructive: development and central breaks lead naturally into the middlegame.

WHAT THIS OPENING IS

B07 covers Pirc Defense. White claims central space while Black chooses a less common route to challenge it. The diagram uses the featured line Pirc Defense.

DEFINING ROUTE

1. e4 d6 2. d4 Nf6 3. Nc3 g6

UNDERSTAND THE POSITION

What both sides are trying to achieve

WHITE'S GOALS

Occupy the center, develop with tempo when possible, and convert Black's unusual move order into a lead in activity.

BLACK'S GOALS

Attack the center rather than its edges, complete development, and prove the unusual setup has a concrete purpose.

PAWN BREAKS - THE ENGINE OF THE OPENING

White often uses d4 or e5; Black needs a reliable ...d5, ...e5, or ...c5 challenge.

PIECE MAP

Central knights and active bishops matter more than early pawn hunting. The central pawn placement should decide where each bishop and knight belongs.

WHAT USUALLY GOES WRONG

Do not assume an uncommon defense is bad. Refute moves with development and calculation, not impatience. Recheck the center after every opponent deviation; opening names do not make moves automatic.

POSITION SNAPSHOT

White moves next. Material is level. Central markers: White pawn on d4, Black pawn on d6, White pawn on e4.

WHO SHOULD STUDY IT?

Useful as surprise territory, though beginners should compare each line with a sound main defense.
