

SICILIAN DEFENSE

Sicilian Defense

ECO B32 | 11 named lines in this code

Featured opening position - gold marks the last move

IS IT A GOOD OPENING?

Good and fully playable. The position remains within a normal opening balance for both sides.

ENGINE SNAPSHOT

+0.48 for White. A shallow opening score is a guide, not a forced result.

GAME CHARACTER

Unbalanced and ambitious: both sides usually receive active plans and real winning chances.

WHAT THIS OPENING IS

B32 covers Sicilian Defense. Black answers 1.e4 with ...c5, creating an asymmetrical center and immediate long-term counterplay. The diagram uses the featured line Sicilian Defense: Open.

DEFINING ROUTE

1. e4 c5 2. Nf3 Nc6 3. d4

UNDERSTAND THE POSITION

What both sides are trying to achieve

WHITE'S GOALS

Develop rapidly, use d4 when appropriate, exploit central space, and decide whether play belongs on the kingside or in the center.

BLACK'S GOALS

Use the half-open c-file, pressure the center, prepare ...d5 or ...e5, and generate queenside or central counterplay.

PAWN BREAKS - THE ENGINE OF THE OPENING

...d5 is often Black's equalizing break. White commonly uses e5, f4-f5, or a central sacrifice to open lines.

PIECE MAP

The c-file, d5 square, and development race are central. In opposite-side castling, every tempo matters. The central pawn placement should decide where each bishop and knight belongs.

WHAT USUALLY GOES WRONG

Memorized attacks fail when the center or castling pattern differs by one move. Recalculate before launching pawns. Recheck the center after every opponent deviation; opening names do not make moves automatic.

POSITION SNAPSHOT

Black moves next. Material is level. Central markers: Black pawn on c5, White pawn on d4, White pawn on e4.

WHO SHOULD STUDY IT?

A first-rate fighting defense with enormous depth. It is excellent, but specialized variations can be theory-heavy.

COMPLETE CODE CONTENTS

Every named B32 line
