

## SICILIAN DEFENSE

# Sicilian Defense

ECO B75 | 3 named lines in this code

Featured opening position - gold marks the last move

## IS IT A GOOD OPENING?

Good and fully playable. The position remains within a normal opening balance for both sides.

## ENGINE SNAPSHOT

+0.56 for White. A shallow opening score is a guide, not a forced result.

## GAME CHARACTER

Active and tactical: both sides must calculate forcing moves before following a thematic plan.

## WHAT THIS OPENING IS

B75 covers Sicilian Defense. Black answers 1.e4 with ...c5, creating an asymmetrical center and immediate long-term counterplay. The diagram uses the featured line Sicilian Defense: Dragon Variation, Yugoslav Attack, Early Deviations.

## DEFINING ROUTE

1. e4 c5 2. Nf3 d6 3. d4 cxd4 4. Nxd4 Nf6 5. Nc3 g6 6. Be3 Bg7 7. f3

## UNDERSTAND THE POSITION

# What both sides are trying to achieve

**WHITE'S GOALS**

Develop rapidly, use d4 when appropriate, exploit central space, and decide whether play belongs on the kingside or in the center.

**BLACK'S GOALS**

Use the half-open c-file, pressure the center, prepare ...d5 or ...e5, and generate queenside or central counterplay.

**PAWN BREAKS - THE ENGINE OF THE OPENING**

...d5 is often Black's equalizing break. White commonly uses e5, f4-f5, or a central sacrifice to open lines.

**PIECE MAP**

The c-file, d5 square, and development race are central. In opposite-side castling, every tempo matters. Black's g7 bishop is aimed at the center and queenside.

**WHAT USUALLY GOES WRONG**

Memorized attacks fail when the center or castling pattern differs by one move. Recalculate before launching pawns. The word 'attack' is a name, not a guarantee; complete development before forcing matters.

**POSITION SNAPSHOT**

Black moves next. Material is level. Central markers: Black pawn on d6, White pawn on e4, White pawn on f3.

**WHO SHOULD STUDY IT?**

A first-rate fighting defense with enormous depth. It is excellent, but specialized variations can be theory-heavy.
