

OPEN GAMES AFTER 1.E4 E5

Latvian Gambit

ECO C40 | 40 named lines in this code

Featured opening position - gold marks the last move

IS IT A GOOD OPENING?

Risky for Black with best play. Use it only with concrete preparation or as a surprise weapon.

ENGINE SNAPSHOT

+1.65 for White. A shallow opening score is a guide, not a forced result.

GAME CHARACTER

Sharp and concrete: initiative, development, and king safety outweigh routine positional rules.

WHAT THIS OPENING IS

C40 covers Latvian Gambit. Both sides contest the center directly, so development, king safety, and tactical accuracy become visible very early. The diagram uses the featured line Latvian Gambit.

DEFINING ROUTE

1. e4 e5 2. Nf3 f5

UNDERSTAND THE POSITION

What both sides are trying to achieve

WHITE'S GOALS

Develop with threats, prepare d4 under favorable conditions, castle, and use any lead in development before it disappears.

BLACK'S GOALS

Neutralize pressure on e5, complete development, and use ...d5 when it solves the center in one move.

PAWN BREAKS - THE ENGINE OF THE OPENING

White's d4 and Black's ...d5 are the central freeing breaks. The f7 and f2 squares demand tactical attention.

PIECE MAP

Knights normally reach f3/c3 and f6/c6 quickly; bishops choose active diagonals according to the central tension. The central pawn placement should decide where each bishop and knight belongs.

WHAT USUALLY GOES WRONG

Pawn grabbing and early queen moves are especially dangerous when the center can open with tempo. A gambit is a tactical contract: the sacrificed material must buy concrete time, lines, or targets.

POSITION SNAPSHOT

White moves next. Material is level. Central markers: White pawn on e4, Black pawn on e5, Black pawn on f5.

WHO SHOULD STUDY IT?

Among the best openings for learning classical chess because strategic principles and tactics reinforce each other.

COMPLETE CODE CONTENTS

Every named C40 line

This section preserves all 40 names and defining routes assigned to C40 in the source catalogue. Different move orders can reach the same position; learn the structures and goals before memorizing labels.

001 Elephant Gambit

1. e4 e5 2. Nf3 d5
