ORIENTATION

How to study this volume

PURPOSE

Practice the transition from flexible setup to active play through complete engine-generated games and prediction exercises.

THE WHITE HIPPO TRAINING LOOP

- Identify Black's center, both kings, and Black's most forcing pawn break.
- At every diagram compare e4, d4, c4, and f4 before choosing another setup move.
- Hide the answer until you have spoken the move, purpose, and Black's best reply.
- Replay each branch from both sides in Fritz or another board program.
- Review misses after 1, 3, 7, 14, 30, and 60 days.
-

WHAT COMPLETE MEANS HERE

This volume contains 12 units inside a connected 1.g3 repertoire. It teaches setup, exceptions, transformation, and resulting plans; the companion PGNs make later updating possible.

STRATEGIC FOUNDATION

Principles 1-3

PRINCIPLE 1

The critical Hippo moment is the transformation, not completion of the shell.

PRINCIPLE 2

Prediction converts examples into decision training.

PRINCIPLE 3

The opponent's strongest reply is part of the plan.

VERIFICATION QUESTION

What would have to be true for one of these principles to be wrong in the current position? Check forcing moves before applying a strategic rule.

STRATEGIC FOUNDATION

Principles 4-6

PRINCIPLE 4

Record the first move you no longer understood.

PRINCIPLE 5

Compare plans before comparing engine numbers.

PRINCIPLE 6

Replay each model game from Black's side to understand the space advantage.

VERIFICATION QUESTION

What would have to be true for one of these principles to be wrong in the current position? Check forcing moves before applying a strategic rule.

ANSWER SECTION

Model-game predictions

COMPARE DECISIONS, NOT JUST MOVES

The game move is one strong practical choice. Compare it with the engine line and ask whether both moves serve the same plan. If your move was sound but different, note the structural idea that justified it.

VOLUME REVIEW

Make the repertoire usable

REVIEW TASK 1

Reconstruct every branch from the first move without looking.

REVIEW TASK 2

For each branch, explain one Black plan and one White plan.

REVIEW TASK 3

Shuffle the recall positions so the chapter title cannot reveal the answer.

REVIEW TASK 4

Play each starting position against Fritz from both sides.

REVIEW TASK 5

Add mistakes from your own games to the PGN as new training positions.

REVIEW TASK 6

Retest the weakest three branches after 1, 3, 7, 14, 30, and 60 days.

GRADUATION STANDARD

Score at least 80 percent twice, one week apart, and explain every move in plain language. Then maintain the volume through your own games instead of rereading it continuously.
