

06

Opening Study That Transfers

Learn positions and decisions, not brittle move strings

INSIDE THIS VOLUME

50

coaching lessons

10

five-part modules

66

phone-friendly pages

Original teaching synthesis: practical advice, logical reasons, limits, board questions, and drills.

THE COACH-IN-YOUR-EAR METHOD

Advice becomes strength only when you can retrieve and apply it.

1. LEARN THE CAUSAL CHAIN

Read the instruction, then explain why it should work. If you cannot connect board feature to move and consequence, you have memorized a slogan rather than learned a tool.

2. USE ALL FIVE LESSONS

Each module separates the core rule, recognition cues, an over-the-board routine, limits and exceptions, and a training habit. Study the set as one skill.

3. RETRIEVE FROM A POSITION

Hide the page, set up a board, and answer the board question before choosing a move. Recognition under uncertainty is the bridge from reading to playing.

4. VERIFY CONCRETE CHESS

Advice organizes attention; it never overrules legality, tactics, or exact calculation. Test the opponent's strongest forcing reply before acting.

5. SPACE THE REVIEWS

Review the module after 1, 3, 7, 14, and 30 days. Mark it learned only when you can state the idea, its boundary, and a real game example without looking.

These are original synthesized lessons, not quotations attributed to any particular grandmaster. The course distills widely established chess reasoning into a practical curriculum.

MODULES 1-5

Volume roadmap

MODULE 01 | ADVICE 0251-0255 | PAGE 5

Learn the Purpose Before the Move

For each opening move, know what it develops, controls, prevents, prepares, or concedes.

MODULE 02 | ADVICE 0256-0260 | PAGE 11

Store Positions at Decision Points

Memorize the positions where plans branch, not every preceding click of a move tree.

MODULE 03 | ADVICE 0261-0265 | PAGE 17

Connect Every Line to a Pawn Structure

Identify the likely pawn skeleton, breaks, weak squares, and favorable exchanges.

MODULE 04 | ADVICE 0266-0270 | PAGE 23

Know the Typical Bad Version

Study how the opening fails when a break is mistimed, a piece is misplaced, or development lags.

MODULE 05 | ADVICE 0271-0275 | PAGE 29

Build Answers to Ideas, Not Every Move

Group opponent moves by their strategic idea and prepare a response family.

The searchable MASTER_ADVICE_INDEX.csv and MASTER_ADVICE_INDEX.html list every individual lesson across all twenty volumes.

MODULES 6-10

Volume roadmap

MODULE 06 | ADVICE 0276-0280 | PAGE 35

Prefer a Compact Repertoire

Choose a connected set of structures you can revisit deeply instead of many unrelated openings.

MODULE 07 | ADVICE 0281-0285 | PAGE 41

Study Model Games by Theme

Select games that demonstrate the opening's main break, piece route, exchange, attack, and endgame.

MODULE 08 | ADVICE 0286-0290 | PAGE 47

Rehearse Common Deviations Early

Practice the opponent's most frequent alternatives before rare theoretical traps.

MODULE 09 | ADVICE 0291-0295 | PAGE 53

End Preparation with a Middlegame Plan

Do not stop a line at "equal"; name the next improvement, break, exchange, and danger.

MODULE 10 | ADVICE 0296-0300 | PAGE 59

Review by Retrieval, Not Rereading

Hide the moves and reconstruct them from the position and purpose.

The searchable MASTER_ADVICE_INDEX.csv and MASTER_ADVICE_INDEX.html list every individual lesson across all twenty volumes.

FIVE-PART MODULE | ADVICE 0251-0255

Learn the Purpose Before the Move

CORE INSTRUCTION

For each opening move, know what it develops, controls, prevents, prepares, or concedes.

WHY IT WORKS

Purpose survives forgotten move orders and helps reconstruct sensible play over the board.

RECOGNITION CUES

Use when adding any line to your repertoire.

BOUNDARY

Some concrete moves are tactical necessities; their purpose may simply be survival.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0251 | MODULE 01 OF 10 | CORE ADVICE

Learn the Purpose Before the Move - The Rule

COACH'S INSTRUCTION

For each opening move, know what it develops, controls, prevents, prepares, or concedes.

WHY IT IS LOGICALLY TRUE

Purpose survives forgotten move orders and helps reconstruct sensible play over the board.

USE IT WHEN

Use when adding any line to your repertoire.

BOUNDARY / FAILURE MODE

Some concrete moves are tactical necessities; their purpose may simply be survival.

QUESTION AT THE BOARD

What problem does this move solve, and what new option does it create?

PRACTICAL DRILL

Replay a line and explain every move without naming the opening.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0252 | MODULE 01 OF 10 | RECOGNITION

Learn the Purpose Before the Move - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use when adding any line to your repertoire.

WHY IT IS LOGICALLY TRUE

Purpose survives forgotten move orders and helps reconstruct sensible play over the board. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Some concrete moves are tactical necessities; their purpose may simply be survival.

QUESTION AT THE BOARD

What problem does this move solve, and what new option does it create?

PRACTICAL DRILL

Recognition drill: Replay a line and explain every move without naming the opening. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0253 | MODULE 01 OF 10 | BOARD USE

Learn the Purpose Before the Move - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'What problem does this move solve, and what new option does it create?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: For each opening move, know what it develops, controls, prevents, prepares, or concedes.

WHY IT IS LOGICALLY TRUE

Purpose survives forgotten move orders and helps reconstruct sensible play over the board. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use when adding any line to your repertoire.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. Some concrete moves are tactical necessities; their purpose may simply be survival.

QUESTION AT THE BOARD

What problem does this move solve, and what new option does it create?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0254 | MODULE 01 OF 10 | EXCEPTIONS

Learn the Purpose Before the Move - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: Some concrete moves are tactical necessities; their purpose may simply be survival.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Purpose survives forgotten move orders and helps reconstruct sensible play over the board.

USE IT WHEN

Use the normal rule under these conditions: Use when adding any line to your repertoire. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: Replay a line and explain every move without naming the opening. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0255 | MODULE 01 OF 10 | TRAINING

Learn the Purpose Before the Move - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: For each opening move, know what it develops, controls, prevents, prepares, or concedes.

WHY IT IS LOGICALLY TRUE

Purpose survives forgotten move orders and helps reconstruct sensible play over the board. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: Some concrete moves are tactical necessities; their purpose may simply be survival.

QUESTION AT THE BOARD

What problem does this move solve, and what new option does it create?

PRACTICAL DRILL

Replay a line and explain every move without naming the opening. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0256-0260

Store Positions at Decision Points

CORE INSTRUCTION

Memorize the positions where plans branch, not every preceding click of a move tree.

WHY IT WORKS

Retrieval is strongest when tied to meaningful choices and visual cues.

RECOGNITION CUES

Use at major pawn breaks, exchanges, and opponent deviations.

BOUNDARY

Exact forcing sequences still require exact memory.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0256 | MODULE 02 OF 10 | CORE ADVICE

Store Positions at Decision Points - The Rule

COACH'S INSTRUCTION

Memorize the positions where plans branch, not every preceding click of a move tree.

WHY IT IS LOGICALLY TRUE

Retrieval is strongest when tied to meaningful choices and visual cues.

USE IT WHEN

Use at major pawn breaks, exchanges, and opponent deviations.

BOUNDARY / FAILURE MODE

Exact forcing sequences still require exact memory.

QUESTION AT THE BOARD

Which position tells me that a choice must now be made?

PRACTICAL DRILL

Save ten key positions and test them from both sides with no move list visible.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0257 | MODULE 02 OF 10 | RECOGNITION

Store Positions at Decision Points - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use at major pawn breaks, exchanges, and opponent deviations.

WHY IT IS LOGICALLY TRUE

Retrieval is strongest when tied to meaningful choices and visual cues. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Exact forcing sequences still require exact memory.

QUESTION AT THE BOARD

Which position tells me that a choice must now be made?

PRACTICAL DRILL

Recognition drill: Save ten key positions and test them from both sides with no move list visible. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0258 | MODULE 02 OF 10 | BOARD USE

Store Positions at Decision Points - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'Which position tells me that a choice must now be made?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Memorize the positions where plans branch, not every preceding click of a move tree.

WHY IT IS LOGICALLY TRUE

Retrieval is strongest when tied to meaningful choices and visual cues. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use at major pawn breaks, exchanges, and opponent deviations.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. Exact forcing sequences still require exact memory.

QUESTION AT THE BOARD

Which position tells me that a choice must now be made?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0259 | MODULE 02 OF 10 | EXCEPTIONS

Store Positions at Decision Points - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: Exact forcing sequences still require exact memory.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Retrieval is strongest when tied to meaningful choices and visual cues.

USE IT WHEN

Use the normal rule under these conditions: Use at major pawn breaks, exchanges, and opponent deviations. Break it only when a calculated variation or clear contextual fact justifies the exception.

PRACTICAL DRILL

Exception drill: Save ten key positions and test them from both sides with no move list visible. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0260 | MODULE 02 OF 10 | TRAINING

Store Positions at Decision Points - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Memorize the positions where plans branch, not every preceding click of a move tree.

WHY IT IS LOGICALLY TRUE

Retrieval is strongest when tied to meaningful choices and visual cues. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: Exact forcing sequences still require exact memory.

QUESTION AT THE BOARD

Which position tells me that a choice must now be made?

PRACTICAL DRILL

Save ten key positions and test them from both sides with no move list visible. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0261-0265

Connect Every Line to a Pawn Structure

CORE INSTRUCTION

Identify the likely pawn skeleton, breaks, weak squares, and favorable exchanges.

WHY IT WORKS

The structure persists after theory ends and determines where pieces belong.

RECOGNITION CUES

Use after learning the first eight to twelve moves.

BOUNDARY

Tactical openings may delay or violently transform the structure.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0261 | MODULE 03 OF 10 | CORE ADVICE

Connect Every Line to a Pawn Structure - The Rule

COACH'S INSTRUCTION

Identify the likely pawn skeleton, breaks, weak squares, and favorable exchanges.

WHY IT IS LOGICALLY TRUE

The structure persists after theory ends and determines where pieces belong.

USE IT WHEN

Use after learning the first eight to twelve moves.

BOUNDARY / FAILURE MODE

Tactical openings may delay or violently transform the structure.

QUESTION AT THE BOARD

What structure am I trying to reach, and who benefits from its main break?

PRACTICAL DRILL

Sort thirty repertoire positions by structure rather than opening name.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0262 | MODULE 03 OF 10 | RECOGNITION

Connect Every Line to a Pawn Structure - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use after learning the first eight to twelve moves.

WHY IT IS LOGICALLY TRUE

The structure persists after theory ends and determines where pieces belong. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Tactical openings may delay or violently transform the structure.

QUESTION AT THE BOARD

What structure am I trying to reach, and who benefits from its main break?

PRACTICAL DRILL

Recognition drill: Sort thirty repertoire positions by structure rather than opening name. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0263 | MODULE 03 OF 10 | BOARD USE

Connect Every Line to a Pawn Structure - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'What structure am I trying to reach, and who benefits from its main break?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Identify the likely pawn skeleton, breaks, weak squares, and favorable exchanges.

WHY IT IS LOGICALLY TRUE

The structure persists after theory ends and determines where pieces belong. A short routine converts understanding into an action that survives clock pressure.

PRACTICAL DRILL

Sort thirty repertoire positions by structure rather than opening name. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0266-0270

Know the Typical Bad Version

CORE INSTRUCTION

Study how the opening fails when a break is mistimed, a piece is misplaced, or development lags.

WHY IT WORKS

Negative examples define the boundaries of a plan and make warning signs memorable.

RECOGNITION CUES

Use for every system you intend to play regularly.

BOUNDARY

Do not become afraid of thematic plans merely because one execution failed.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0266 | MODULE 04 OF 10 | CORE ADVICE

Know the Typical Bad Version - The Rule

COACH'S INSTRUCTION

Study how the opening fails when a break is mistimed, a piece is misplaced, or development lags.

WHY IT IS LOGICALLY TRUE

Negative examples define the boundaries of a plan and make warning signs memorable.

USE IT WHEN

Use for every system you intend to play regularly.

BOUNDARY / FAILURE MODE

Do not become afraid of thematic plans merely because one execution failed.

QUESTION AT THE BOARD

What would make this setup a bad version?

PRACTICAL DRILL

Find three losses in each main opening and diagnose the first structural or developmental error.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0267 | MODULE 04 OF 10 | RECOGNITION

Know the Typical Bad Version - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use for every system you intend to play regularly.

FIVE-PART MODULE | ADVICE 0271-0275

Build Answers to Ideas, Not Every Move

CORE INSTRUCTION

Group opponent moves by their strategic idea and prepare a response family.

WHY IT WORKS

Many move orders transpose or serve the same purpose; idea-based grouping reduces memory load.

RECOGNITION CUES

Use against sidelines and flexible systems.

BOUNDARY

Concrete tactical deviations must be checked individually.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0271 | MODULE 05 OF 10 | CORE ADVICE

Build Answers to Ideas, Not Every Move - The Rule

COACH'S INSTRUCTION

Group opponent moves by their strategic idea and prepare a response family.

WHY IT IS LOGICALLY TRUE

Many move orders transpose or serve the same purpose; idea-based grouping reduces memory load.

USE IT WHEN

Use against sidelines and flexible systems.

BOUNDARY / FAILURE MODE

Concrete tactical deviations must be checked individually.

QUESTION AT THE BOARD

What is the opponent trying to achieve, regardless of move order?

PRACTICAL DRILL

Take twenty sidelines and classify them into five idea families.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0272 | MODULE 05 OF 10 | RECOGNITION

Build Answers to Ideas, Not Every Move - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use against sidelines and flexible systems.

FIVE-PART MODULE | ADVICE 0276-0280

Prefer a Compact Repertoire

CORE INSTRUCTION

Choose a connected set of structures you can revisit deeply instead of many unrelated openings.

WHY IT WORKS

Repeated structures build pattern knowledge and leave more study time for calculation and endings.

RECOGNITION CUES

Use when designing or repairing a repertoire.

BOUNDARY

Variety can be useful for advanced preparation or motivation, but it increases maintenance.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0276 | MODULE 06 OF 10 | CORE ADVICE

Prefer a Compact Repertoire - The Rule

COACH'S INSTRUCTION

Choose a connected set of structures you can revisit deeply instead of many unrelated openings.

WHY IT IS LOGICALLY TRUE

Repeated structures build pattern knowledge and leave more study time for calculation and endings.

USE IT WHEN

Use when designing or repairing a repertoire.

BOUNDARY / FAILURE MODE

Variety can be useful for advanced preparation or motivation, but it increases maintenance.

QUESTION AT THE BOARD

Which lines teach the same middlegame skills?

PRACTICAL DRILL

Draw a repertoire map showing structures and transpositions, then remove redundant branches.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0277 | MODULE 06 OF 10 | RECOGNITION

Prefer a Compact Repertoire - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use when designing or repairing a repertoire.

WHY IT IS LOGICALLY TRUE

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0278 | MODULE 06 OF 10 | BOARD USE

Prefer a Compact Repertoire - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'Which lines teach the same middlegame skills?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Choose a connected set of structures you can revisit deeply instead of many unrelated openings.

WHY IT IS LOGICALLY TRUE

Repeated structures build pattern knowledge and leave more study time for calculation and endings. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use when designing or repairing a repertoire.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. Variety can be useful for advanced preparation or motivation, but it increases maintenance.

QUESTION AT THE BOARD

Which lines teach the same middlegame skills?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0279 | MODULE 06 OF 10 | EXCEPTIONS

Prefer a Compact Repertoire - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: Variety can be useful for advanced preparation or motivation, but it increases maintenance.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Repeated structures build pattern knowledge and leave more study time for calculation and endings.

USE IT WHEN

Use the normal rule under these conditions: Use when designing or repairing a repertoire. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: Draw a repertoire map showing structures and transpositions, then remove redundant branches. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0280 | MODULE 06 OF 10 | TRAINING

Prefer a Compact Repertoire - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Choose a connected set of structures you can revisit deeply instead of many unrelated openings.

WHY IT IS LOGICALLY TRUE

Repeated structures build pattern knowledge and leave more study time for calculation and endings. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: Variety can be useful for advanced preparation or motivation, but it increases maintenance.

QUESTION AT THE BOARD

Which lines teach the same middlegame skills?

PRACTICAL DRILL

Draw a repertoire map showing structures and transpositions, then remove redundant branches. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0281-0285

Study Model Games by Theme

CORE INSTRUCTION

Select games that demonstrate the opening's main break, piece route, exchange, attack, and endgame.

WHY IT WORKS

Complete games connect early moves to consequences that opening trees hide.

RECOGNITION CUES

Use after learning a skeleton line.

BOUNDARY

One beautiful game is an example, not proof that a plan always works.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0281 | MODULE 07 OF 10 | CORE ADVICE

Study Model Games by Theme - The Rule

COACH'S INSTRUCTION

Select games that demonstrate the opening's main break, piece route, exchange, attack, and endgame.

WHY IT IS LOGICALLY TRUE

Complete games connect early moves to consequences that opening trees hide.

USE IT WHEN

Use after learning a skeleton line.

BOUNDARY / FAILURE MODE

One beautiful game is an example, not proof that a plan always works.

QUESTION AT THE BOARD

Which later event explains the opening move I am studying?

PRACTICAL DRILL

Pause before every thematic move in five model games and predict it.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0282 | MODULE 07 OF 10 | RECOGNITION

Study Model Games by Theme - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use after learning a skeleton line.

WHY IT IS LOGICALLY TRUE

Complete games connect early moves to consequences that opening trees hide. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. One beautiful game is an example, not proof that a plan always works.

QUESTION AT THE BOARD

Which later event explains the opening move I am studying?

PRACTICAL DRILL

Recognition drill: Pause before every thematic move in five model games and predict it. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0283 | MODULE 07 OF 10 | BOARD USE

Study Model Games by Theme - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'Which later event explains the opening move I am studying?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Select games that demonstrate the opening's main break, piece route, exchange, attack, and endgame.

WHY IT IS LOGICALLY TRUE

Complete games connect early moves to consequences that opening trees hide. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use after learning a skeleton line.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. One beautiful game is an example, not proof that a plan always works.

QUESTION AT THE BOARD

Which later event explains the opening move I am studying?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0284 | MODULE 07 OF 10 | EXCEPTIONS

Study Model Games by Theme - Know When to Break It

Pause before every thematic move in five model games and predict it. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0286-0290

Rehearse Common Deviations Early

CORE INSTRUCTION

Practice the opponent's most frequent alternatives before rare theoretical traps.

WHY IT WORKS

Practical value equals probability times consequence; common positions deserve the most retrieval strength.

RECOGNITION CUES

Use when time is limited.

BOUNDARY

A rare line with a severe tactical trap may deserve priority despite low frequency.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0286 | MODULE 08 OF 10 | CORE ADVICE

Rehearse Common Deviations Early - The Rule

COACH'S INSTRUCTION

Practice the opponent's most frequent alternatives before rare theoretical traps.

WHY IT IS LOGICALLY TRUE

Practical value equals probability times consequence; common positions deserve the most retrieval strength.

USE IT WHEN

Use when time is limited.

BOUNDARY / FAILURE MODE

A rare line with a severe tactical trap may deserve priority despite low frequency.

QUESTION AT THE BOARD

What am I most likely to face next week?

PRACTICAL DRILL

Use a database or your own games to rank branches, then test the top five repeatedly.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0287 | MODULE 08 OF 10 | RECOGNITION

Rehearse Common Deviations Early - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use when time is limited.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0291-0295

End Preparation with a Middlegame Plan

CORE INSTRUCTION

Do not stop a line at "equal"; name the next improvement, break, exchange, and danger.

WHY IT WORKS

The first independent move is where memorization must become chess. A bridge plan prevents immediate drift.

RECOGNITION CUES

Use at every repertoire endpoint.

BOUNDARY

The plan changes with the opponent's exact setup; keep it conditional.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0291 | MODULE 09 OF 10 | CORE ADVICE

End Preparation with a Middlegame Plan - The Rule

COACH'S INSTRUCTION

Do not stop a line at "equal"; name the next improvement, break, exchange, and danger.

WHY IT IS LOGICALLY TRUE

The first independent move is where memorization must become chess. A bridge plan prevents immediate drift.

USE IT WHEN

Use at every repertoire endpoint.

BOUNDARY / FAILURE MODE

The plan changes with the opponent's exact setup; keep it conditional.

QUESTION AT THE BOARD

If theory ended here, what would I do for the next three moves?

PRACTICAL DRILL

For each main line, write a one-card plan with best piece, worst piece, break, and warning.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0292 | MODULE 09 OF 10 | RECOGNITION

End Preparation with a Middlegame Plan - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use at every repertoire endpoint.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0296-0300

Review by Retrieval, Not Rereading

CORE INSTRUCTION

Hide the moves and reconstruct them from the position and purpose.

WHY IT WORKS

Effortful recall strengthens memory; passive recognition creates false familiarity.

RECOGNITION CUES

Use in every opening review session.

BOUNDARY

When recall fails, restudy briefly before testing again.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0296 | MODULE 10 OF 10 | CORE ADVICE

Review by Retrieval, Not Rereading - The Rule

COACH'S INSTRUCTION

Hide the moves and reconstruct them from the position and purpose.

WHY IT IS LOGICALLY TRUE

Effortful recall strengthens memory; passive recognition creates false familiarity.

USE IT WHEN

Use in every opening review session.

BOUNDARY / FAILURE MODE

When recall fails, restudy briefly before testing again.

QUESTION AT THE BOARD

Can I produce the move and explain it without seeing the answer?

PRACTICAL DRILL

Schedule position tests after 1, 3, 7, 14, and 30 days.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0297 | MODULE 10 OF 10 | RECOGNITION

Review by Retrieval, Not Rereading - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use in every opening review session.

WHY IT IS LOGICALLY TRUE

Effortful recall strengthens memory; passive recognition creates false familiarity. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

MEMORY HOOK | What you retrieve is what you can use.

RETRIEVAL TEST

Can you coach yourself through all ten modules?

01 Learn the Purpose Before the Move

What problem does this move solve, and what new option does it create?

02 Store Positions at Decision Points

Which position tells me that a choice must now be made?

03 Connect Every Line to a Pawn Structure

What structure am I trying to reach, and who benefits from its main break?

04 Know the Typical Bad Version

What would make this setup a bad version?

05 Build Answers to Ideas, Not Every Move

What is the opponent trying to achieve, regardless of move order?

06 Prefer a Compact Repertoire

Which lines teach the same middlegame skills?

07 Study Model Games by Theme

Which later event explains the opening move I am studying?

08 Rehearse Common Deviations Early

What am I most likely to face next week?

09 End Preparation with a Middlegame Plan

If theory ended here, what would I do for the next three moves?

10 Review by Retrieval, Not Rereading

Can I produce the move and explain it without seeing the answer?

Pass standard: state the core advice, explain the causal reason, name one exception, and apply the board question to a fresh position.

COMPLETION TEST

Choose a fresh position. Without notes, identify the main problem, recall the relevant advice, state its limit, generate candidates, and test the opponent's best reply. Date the volume only when the method appears naturally in slow games.
