Attacking with Justification

Build attacks from force, access, and timing

INSIDE THIS VOLUME

50

coaching lessons

10

five-part modules

66

phone-friendly pages

Original teaching synthesis: practical advice, logical reasons, limits, board questions, and drills.

THE COACH-IN-YOUR-EAR METHOD

Advice becomes strength only when you can retrieve and apply it.

1. LEARN THE CAUSAL CHAIN

Read the instruction, then explain why it should work. If you cannot connect board feature to move and consequence, you have memorized a slogan rather than learned a tool.

2. USE ALL FIVE LESSONS

Each module separates the core rule, recognition cues, an over-the-board routine, limits and exceptions, and a training habit. Study the set as one skill.

3. RETRIEVE FROM A POSITION

Hide the page, set up a board, and answer the board question before choosing a move. Recognition under uncertainty is the bridge from reading to playing.

4. VERIFY CONCRETE CHESS

Advice organizes attention; it never overrules legality, tactics, or exact calculation. Test the opponent's strongest forcing reply before acting.

5. SPACE THE REVIEWS

Review the module after 1, 3, 7, 14, and 30 days. Mark it learned only when you can state the idea, its boundary, and a real game example without looking.

These are original synthesized lessons, not quotations attributed to any particular grandmaster. The course distills widely established chess reasoning into a practical curriculum.

MODULES 1-5

Volume roadmap

MODULE 01 | ADVICE 0551-0555 | PAGE 5

Earn the Right to Attack

Attack when you have superior force, space, lines, targets, or a safer center.

MODULE 02 | ADVICE 0556-0560 | PAGE 11

Bring the Least Active Attacker

Improve the piece furthest from the king zone before sacrificing more material.

MODULE 03 | ADVICE 0561-0565 | PAGE 17

Open Lines Toward the King

Use breaks, exchanges, and sacrifices to create files and diagonals that your pieces can occupy.

MODULE 04 | ADVICE 0566-0570 | PAGE 23

Remove the Best Defender

Exchange, deflect, pin, or overload the piece that controls escape squares or blocks entry.

MODULE 05 | ADVICE 0571-0575 | PAGE 29

Create More Than One Threat

Prefer moves that combine mate, material gain, entry, or restriction.

The searchable MASTER_ADVICE_INDEX.csv and MASTER_ADVICE_INDEX.html list every individual lesson across all twenty volumes.

MODULES 6-10

Volume roadmap

MODULE 06 | ADVICE 0576-0580 | PAGE 35

Count Escape Squares Before Checks

Map legal king moves and defensive interpositions before selecting a check.

MODULE 07 | ADVICE 0581-0585 | PAGE 41

Use Pawn Storms with a Closed Center

Advance wing pawns when the center cannot open against your own king and pieces support the contact.

MODULE 08 | ADVICE 0586-0590 | PAGE 47

Keep Your Own King in the Calculation

Check counterchecks, queen trades, and central breaks before committing attackers.

MODULE 09 | ADVICE 0591-0595 | PAGE 53

Convert Pressure When the Attack Stalls

Take material, enter a favorable ending, or secure a structural gain when direct mate is no longer justified.

MODULE 10 | ADVICE 0596-0600 | PAGE 59

Sacrifice for Specific Compensation

Name the lines, king exposure, tempi, piece activity, or forced recovery that justify material investment.

The searchable MASTER_ADVICE_INDEX.csv and MASTER_ADVICE_INDEX.html list every individual lesson across all twenty volumes.

FIVE-PART MODULE | ADVICE 0551-0555

Earn the Right to Attack

CORE INSTRUCTION

Attack when you have superior force, space, lines, targets, or a safer center.

WHY IT WORKS

A king assault is a local contest; advantages elsewhere matter only if they can reach the king zone.

RECOGNITION CUES

Use before launching pawns or sacrifices.

BOUNDARY

A tactical opportunity may justify attack without every positional precondition.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0551 | MODULE 01 OF 10 | CORE ADVICE

Earn the Right to Attack - The Rule

COACH'S INSTRUCTION

Attack when you have superior force, space, lines, targets, or a safer center.

WHY IT IS LOGICALLY TRUE

A king assault is a local contest; advantages elsewhere matter only if they can reach the king zone.

USE IT WHEN

Use before launching pawns or sacrifices.

BOUNDARY / FAILURE MODE

A tactical opportunity may justify attack without every positional precondition.

QUESTION AT THE BOARD

What concrete advantage supports this attack?

PRACTICAL DRILL

For twenty attacks, identify the enabling advantage before the first aggressive move.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0552 | MODULE 01 OF 10 | RECOGNITION

Earn the Right to Attack - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use before launching pawns or sacrifices.

WHY IT IS LOGICALLY TRUE

A king assault is a local contest; advantages elsewhere matter only if they can reach the king zone. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. A tactical opportunity may justify attack without every positional precondition.

QUESTION AT THE BOARD

What concrete advantage supports this attack?

PRACTICAL DRILL

Recognition drill: For twenty attacks, identify the enabling advantage before the first aggressive move. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0553 | MODULE 01 OF 10 | BOARD USE

Earn the Right to Attack - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'What concrete advantage supports this attack?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Attack when you have superior force, space, lines, targets, or a safer center.

WHY IT IS LOGICALLY TRUE

A king assault is a local contest; advantages elsewhere matter only if they can reach the king zone. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use before launching pawns or sacrifices.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. A tactical opportunity may justify attack without every positional precondition.

QUESTION AT THE BOARD

What concrete advantage supports this attack?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0554 | MODULE 01 OF 10 | EXCEPTIONS

Earn the Right to Attack - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: A tactical opportunity may justify attack without every positional precondition.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. A king assault is a local contest; advantages elsewhere matter only if they can reach the king zone.

USE IT WHEN

Use the normal rule under these conditions: Use before launching pawns or sacrifices. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: For twenty attacks, identify the enabling advantage before the first aggressive move. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0555 | MODULE 01 OF 10 | TRAINING

Earn the Right to Attack - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Attack when you have superior force, space, lines, targets, or a safer center.

WHY IT IS LOGICALLY TRUE

A king assault is a local contest; advantages elsewhere matter only if they can reach the king zone. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: A tactical opportunity may justify attack without every positional precondition.

QUESTION AT THE BOARD

What concrete advantage supports this attack?

PRACTICAL DRILL

For twenty attacks, identify the enabling advantage before the first aggressive move. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0556-0560

Bring the Least Active Attacker

CORE INSTRUCTION

Improve the piece furthest from the king zone before sacrificing more material.

WHY IT WORKS

Additional force often creates threats without irreversible risk.

RECOGNITION CUES

Use when direct tactics almost work.

BOUNDARY

Tempo may be too short if the opponent can consolidate or counterattack.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0556 | MODULE 02 OF 10 | CORE ADVICE

Bring the Least Active Attacker - The Rule

COACH'S INSTRUCTION

Improve the piece furthest from the king zone before sacrificing more material.

WHY IT IS LOGICALLY TRUE

Additional force often creates threats without irreversible risk.

USE IT WHEN

Use when direct tactics almost work.

BOUNDARY / FAILURE MODE

Tempo may be too short if the opponent can consolidate or counterattack.

QUESTION AT THE BOARD

Which piece can join with the greatest gain?

PRACTICAL DRILL

Pause before master attacks and predict the final piece brought into play.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0557 | MODULE 02 OF 10 | RECOGNITION

Bring the Least Active Attacker - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use when direct tactics almost work.

WHY IT IS LOGICALLY TRUE

Additional force often creates threats without irreversible risk. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Tempo may be too short if the opponent can consolidate or counterattack.

QUESTION AT THE BOARD

Which piece can join with the greatest gain?

PRACTICAL DRILL

Recognition drill: Pause before master attacks and predict the final piece brought into play. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0558 | MODULE 02 OF 10 | BOARD USE

Bring the Least Active Attacker - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'Which piece can join with the greatest gain?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Improve the piece furthest from the king zone before sacrificing more material.

WHY IT IS LOGICALLY TRUE

Additional force often creates threats without irreversible risk. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use when direct tactics almost work.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. Tempo may be too short if the opponent can consolidate or counterattack.

QUESTION AT THE BOARD

Which piece can join with the greatest gain?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0559 | MODULE 02 OF 10 | EXCEPTIONS

Bring the Least Active Attacker - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: Tempo may be too short if the opponent can consolidate or counterattack.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Additional force often creates threats without irreversible risk.

USE IT WHEN

Use the normal rule under these conditions: Use when direct tactics almost work. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: Pause before master attacks and predict the final piece brought into play. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0560 | MODULE 02 OF 10 | TRAINING

Bring the Least Active Attacker - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Improve the piece furthest from the king zone before sacrificing more material.

WHY IT IS LOGICALLY TRUE

Additional force often creates threats without irreversible risk. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: Tempo may be too short if the opponent can consolidate or counterattack.

QUESTION AT THE BOARD

Which piece can join with the greatest gain?

PRACTICAL DRILL

Pause before master attacks and predict the final piece brought into play. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0561-0565

Open Lines Toward the King

CORE INSTRUCTION

Use breaks, exchanges, and sacrifices to create files and diagonals that your pieces can occupy.

WHY IT WORKS

Long-range force needs access; closed lines make material near the king ineffective.

RECOGNITION CUES

Use against pawn shields and blocked centers.

BOUNDARY

Opening lines can expose your own king or activate defenders.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0561 | MODULE 03 OF 10 | CORE ADVICE

Open Lines Toward the King - The Rule

COACH'S INSTRUCTION

Use breaks, exchanges, and sacrifices to create files and diagonals that your pieces can occupy.

WHY IT IS LOGICALLY TRUE

Long-range force needs access; closed lines make material near the king ineffective.

USE IT WHEN

Use against pawn shields and blocked centers.

BOUNDARY / FAILURE MODE

Opening lines can expose your own king or activate defenders.

QUESTION AT THE BOARD

Who controls the new line after it opens?

PRACTICAL DRILL

For ten attacking positions, list every possible line-opening move and its cost.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0562 | MODULE 03 OF 10 | RECOGNITION

Open Lines Toward the King - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use against pawn shields and blocked centers.

WHY IT IS LOGICALLY TRUE

Long-range force needs access; closed lines make material near the king ineffective. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Opening lines can expose your own king or activate defenders.

QUESTION AT THE BOARD

Who controls the new line after it opens?

PRACTICAL DRILL

Recognition drill: For ten attacking positions, list every possible line-opening move and its cost. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0563 | MODULE 03 OF 10 | BOARD USE

Open Lines Toward the King - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'Who controls the new line after it opens?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Use breaks, exchanges, and sacrifices to create files and diagonals that your pieces can occupy.

WHY IT IS LOGICALLY TRUE

Long-range force needs access; closed lines make material near the king ineffective. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use against pawn shields and blocked centers.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. Opening lines can expose your own king or activate defenders.

QUESTION AT THE BOARD

Who controls the new line after it opens?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0564 | MODULE 03 OF 10 | EXCEPTIONS

Open Lines Toward the King - Know When to Break It

QUESTION AT THE BOARD

Who controls the new line after it opens?

PRACTICAL DRILL

For ten attacking positions, list every possible line-opening move and its cost. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0566-0570

Remove the Best Defender

CORE INSTRUCTION

Exchange, deflect, pin, or overload the piece that controls escape squares or blocks entry.

WHY IT WORKS

Defensive networks often have one essential unit.

RECOGNITION CUES

Use when one piece prevents several tactics.

BOUNDARY

The defender may be replaceable or too expensive to remove.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0566 | MODULE 04 OF 10 | CORE ADVICE

Remove the Best Defender - The Rule

COACH'S INSTRUCTION

Exchange, deflect, pin, or overload the piece that controls escape squares or blocks entry.

WHY IT IS LOGICALLY TRUE

Defensive networks often have one essential unit.

USE IT WHEN

Use when one piece prevents several tactics.

BOUNDARY / FAILURE MODE

The defender may be replaceable or too expensive to remove.

QUESTION AT THE BOARD

Which defender makes all my direct lines fail?

PRACTICAL DRILL

Identify the key defender in twenty combinations before calculating.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0567 | MODULE 04 OF 10 | RECOGNITION

Remove the Best Defender - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use when one piece prevents several tactics.

WHY IT IS LOGICALLY TRUE

Defensive networks often have one essential unit. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. The defender may be replaceable or too expensive to remove.

Identify the key defender in twenty combinations before calculating. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0571-0575

Create More Than One Threat

CORE INSTRUCTION

Prefer moves that combine mate, material gain, entry, or restriction.

WHY IT WORKS

Defenders fail when one reply cannot meet multiple demands.

RECOGNITION CUES

Use when a forcing sequence is not available.

BOUNDARY

Threats may be illusory if the opponent has a stronger counterattack.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0571 | MODULE 05 OF 10 | CORE ADVICE

Create More Than One Threat - The Rule

COACH'S INSTRUCTION

Prefer moves that combine mate, material gain, entry, or restriction.

WHY IT IS LOGICALLY TRUE

Defenders fail when one reply cannot meet multiple demands.

USE IT WHEN

Use when a forcing sequence is not available.

BOUNDARY / FAILURE MODE

Threats may be illusory if the opponent has a stronger counterattack.

QUESTION AT THE BOARD

What two problems must the opponent solve after this move?

PRACTICAL DRILL

Search quiet attacking positions for dual-purpose moves.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0572 | MODULE 05 OF 10 | RECOGNITION

Create More Than One Threat - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use when a forcing sequence is not available.

WHY IT IS LOGICALLY TRUE

Defenders fail when one reply cannot meet multiple demands. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

Search quiet attacking positions for dual-purpose moves. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0576-0580

Count Escape Squares Before Checks

CORE INSTRUCTION

Map legal king moves and defensive interpositions before selecting a check.

WHY IT WORKS

A check that improves the king's location can lose the initiative.

RECOGNITION CUES

Use in every mating attack.

BOUNDARY

Forcing checks remain first to examine, not first to play.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0576 | MODULE 06 OF 10 | CORE ADVICE

Count Escape Squares Before Checks - The Rule

COACH'S INSTRUCTION

Map legal king moves and defensive interpositions before selecting a check.

WHY IT IS LOGICALLY TRUE

A check that improves the king's location can lose the initiative.

USE IT WHEN

Use in every mating attack.

BOUNDARY / FAILURE MODE

Forcing checks remain first to examine, not first to play.

QUESTION AT THE BOARD

Does this check restrict the king or guide it to safety?

PRACTICAL DRILL

Solve mates by listing flights before calculating checks.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0577 | MODULE 06 OF 10 | RECOGNITION

Count Escape Squares Before Checks - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use in every mating attack.

WHY IT IS LOGICALLY TRUE

A check that improves the king's location can lose the initiative. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Forcing checks remain first to examine, not first to play.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: Solve mates by listing flights before calculating checks. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0580 | MODULE 06 OF 10 | TRAINING

Count Escape Squares Before Checks - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Map legal king moves and defensive interpositions before selecting a check.

WHY IT IS LOGICALLY TRUE

A check that improves the king's location can lose the initiative. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: Forcing checks remain first to examine, not first to play.

QUESTION AT THE BOARD

Does this check restrict the king or guide it to safety?

PRACTICAL DRILL

Solve mates by listing flights before calculating checks. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0581-0585

Use Pawn Storms with a Closed Center

CORE INSTRUCTION

Advance wing pawns when the center cannot open against your own king and pieces support the contact.

WHY IT WORKS

Opposite-wing attacks are races; central stability makes flank tempi meaningful.

RECOGNITION CUES

Use with castled kings on opposite sides or fixed centers.

BOUNDARY

A central break can make the storm suicidal.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0581 | MODULE 07 OF 10 | CORE ADVICE

Use Pawn Storms with a Closed Center - The Rule

COACH'S INSTRUCTION

Advance wing pawns when the center cannot open against your own king and pieces support the contact.

WHY IT IS LOGICALLY TRUE

Opposite-wing attacks are races; central stability makes flank tempi meaningful.

USE IT WHEN

Use with castled kings on opposite sides or fixed centers.

BOUNDARY / FAILURE MODE

A central break can make the storm suicidal.

QUESTION AT THE BOARD

Can the opponent open the center faster than I open the wing?

PRACTICAL DRILL

Compare five successful and five failed pawn storms by central timing.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0582 | MODULE 07 OF 10 | RECOGNITION

Use Pawn Storms with a Closed Center - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use with castled kings on opposite sides or fixed centers.

WHY IT IS LOGICALLY TRUE

Opposite-wing attacks are races; central stability makes flank tempi meaningful. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. A central break can make the storm suicidal.

QUESTION AT THE BOARD

Can the opponent open the center faster than I open the wing?

PRACTICAL DRILL

Recognition drill: Compare five successful and five failed pawn storms by central timing. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0583 | MODULE 07 OF 10 | BOARD USE

Use Pawn Storms with a Closed Center - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'Can the opponent open the center faster than I open the wing?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Advance wing pawns when the center cannot open against your own king and pieces support the contact.

WHY IT IS LOGICALLY TRUE

Opposite-wing attacks are races; central stability makes flank tempi meaningful. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use with castled kings on opposite sides or fixed centers.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. A central break can make the storm suicidal.

QUESTION AT THE BOARD

Can the opponent open the center faster than I open the wing?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0584 | MODULE 07 OF 10 | EXCEPTIONS

Use Pawn Storms with a Closed Center - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: A central break can make the storm suicidal.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Opposite-wing attacks are races; central stability makes flank tempi meaningful.

USE IT WHEN

Use the normal rule under these conditions: Use with castled kings on opposite sides or fixed centers. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: Compare five successful and five failed pawn storms by central timing. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0585 | MODULE 07 OF 10 | TRAINING

Use Pawn Storms with a Closed Center - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Advance wing pawns when the center cannot open against your own king and pieces support the contact.

WHY IT IS LOGICALLY TRUE

Opposite-wing attacks are races; central stability makes flank tempi meaningful. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: A central break can make the storm suicidal.

QUESTION AT THE BOARD

PRACTICAL DRILL

Compare five successful and five failed pawn storms by central timing. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0586-0590

Keep Your Own King in the Calculation

CORE INSTRUCTION

Check counterchecks, queen trades, and central breaks before committing attackers.

WHY IT WORKS

Attackers often remove defenders from home; the opponent may win by changing the target.

RECOGNITION CUES

Use before sacrifices and rook lifts.

BOUNDARY

A forced mate makes counterplay irrelevant only after it is proven.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0586 | MODULE 08 OF 10 | CORE ADVICE

Keep Your Own King in the Calculation - The Rule

COACH'S INSTRUCTION

Check counterchecks, queen trades, and central breaks before committing attackers.

WHY IT IS LOGICALLY TRUE

Attackers often remove defenders from home; the opponent may win by changing the target.

USE IT WHEN

Use before sacrifices and rook lifts.

BOUNDARY / FAILURE MODE

A forced mate makes counterplay irrelevant only after it is proven.

QUESTION AT THE BOARD

What is their strongest forcing move against my king?

PRACTICAL DRILL

In every attack puzzle, calculate one defensive counterattack line.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0587 | MODULE 08 OF 10 | RECOGNITION

Keep Your Own King in the Calculation - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use before sacrifices and rook lifts.

WHY IT IS LOGICALLY TRUE

Attackers often remove defenders from home; the opponent may win by changing the target. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0591-0595

Convert Pressure When the Attack Stalls

CORE INSTRUCTION

Take material, enter a favorable ending, or secure a structural gain when direct mate is no longer justified.

WHY IT WORKS

Pressure is valuable because it can force concessions; refusing them can let the defender escape.

RECOGNITION CUES

Use after defenders consolidate or queens can be traded favorably.

BOUNDARY

Continuing the attack is correct if the conversion releases all advantage.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0591 | MODULE 09 OF 10 | CORE ADVICE

Convert Pressure When the Attack Stalls - The Rule

COACH'S INSTRUCTION

Take material, enter a favorable ending, or secure a structural gain when direct mate is no longer justified.

WHY IT IS LOGICALLY TRUE

Pressure is valuable because it can force concessions; refusing them can let the defender escape.

USE IT WHEN

Use after defenders consolidate or queens can be traded favorably.

BOUNDARY / FAILURE MODE

Continuing the attack is correct if the conversion releases all advantage.

QUESTION AT THE BOARD

What lasting gain has the attack already earned?

PRACTICAL DRILL

Study attacking games and mark the moment pressure became material or structure.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0592 | MODULE 09 OF 10 | RECOGNITION

Convert Pressure When the Attack Stalls - How to Notice It

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0596-0600

Sacrifice for Specific Compensation

CORE INSTRUCTION

Name the lines, king exposure, tempi, piece activity, or forced recovery that justify material investment.

WHY IT WORKS

"Attack" is not compensation; concrete assets determine whether the sacrifice survives defense.

RECOGNITION CUES

Use before every non-forced sacrifice.

BOUNDARY

Practical sacrifices can be reasonable even when not objectively best, but know the risk.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0596 | MODULE 10 OF 10 | CORE ADVICE

Sacrifice for Specific Compensation - The Rule

COACH'S INSTRUCTION

Name the lines, king exposure, tempi, piece activity, or forced recovery that justify material investment.

WHY IT IS LOGICALLY TRUE

"Attack" is not compensation; concrete assets determine whether the sacrifice survives defense.

USE IT WHEN

Use before every non-forced sacrifice.

BOUNDARY / FAILURE MODE

Practical sacrifices can be reasonable even when not objectively best, but know the risk.

QUESTION AT THE BOARD

What do I receive immediately, and what remains if the attack is defended?

PRACTICAL DRILL

Analyze sacrifices with a compensation ledger before checking an engine.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0597 | MODULE 10 OF 10 | RECOGNITION

Sacrifice for Specific Compensation - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use before every non-forced sacrifice.

PRACTICAL DRILL

Exception drill: Analyze sacrifices with a compensation ledger before checking an engine. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0600 | MODULE 10 OF 10 | TRAINING

Sacrifice for Specific Compensation - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Name the lines, king exposure, tempi, piece activity, or forced recovery that justify material investment.

WHY IT IS LOGICALLY TRUE

"Attack" is not compensation; concrete assets determine whether the sacrifice survives defense. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: Practical sacrifices can be reasonable even when not objectively best, but know the risk.

QUESTION AT THE BOARD

What do I receive immediately, and what remains if the attack is defended?

PRACTICAL DRILL

Analyze sacrifices with a compensation ledger before checking an engine. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

RETRIEVAL TEST

Can you coach yourself through all ten modules?

01 Earn the Right to Attack

What concrete advantage supports this attack?

02 Bring the Least Active Attacker

Which piece can join with the greatest gain?

03 Open Lines Toward the King

Who controls the new line after it opens?

04 Remove the Best Defender

Which defender makes all my direct lines fail?

05 Create More Than One Threat

What two problems must the opponent solve after this move?

06 Count Escape Squares Before Checks

Does this check restrict the king or guide it to safety?

07 Use Pawn Storms with a Closed Center

Can the opponent open the center faster than I open the wing?

08 Keep Your Own King in the Calculation

What is their strongest forcing move against my king?

09 Convert Pressure When the Attack Stalls

What lasting gain has the attack already earned?

10 Sacrifice for Specific Compensation

What do I receive immediately, and what remains if the attack is defended?

Pass standard: state the core advice, explain the causal reason, name one exception, and apply the board question to a fresh position.
