Defense and Prophylaxis

Reduce danger while creating active chances

INSIDE THIS VOLUME

50

coaching lessons

10

five-part modules

66

phone-friendly pages

Original teaching synthesis: practical advice, logical reasons, limits, board questions, and drills.

THE COACH-IN-YOUR-EAR METHOD

Advice becomes strength only when you can retrieve and apply it.

1. LEARN THE CAUSAL CHAIN

Read the instruction, then explain why it should work. If you cannot connect board feature to move and consequence, you have memorized a slogan rather than learned a tool.

2. USE ALL FIVE LESSONS

Each module separates the core rule, recognition cues, an over-the-board routine, limits and exceptions, and a training habit. Study the set as one skill.

3. RETRIEVE FROM A POSITION

Hide the page, set up a board, and answer the board question before choosing a move. Recognition under uncertainty is the bridge from reading to playing.

4. VERIFY CONCRETE CHESS

Advice organizes attention; it never overrules legality, tactics, or exact calculation. Test the opponent's strongest forcing reply before acting.

5. SPACE THE REVIEWS

Review the module after 1, 3, 7, 14, and 30 days. Mark it learned only when you can state the idea, its boundary, and a real game example without looking.

These are original synthesized lessons, not quotations attributed to any particular grandmaster. The course distills widely established chess reasoning into a practical curriculum.

MODULES 1-5

Volume roadmap

MODULE 01 | ADVICE 0601-0605 | PAGE 5

Name the Threat Precisely

State what the opponent will do, where, and with what consequence.

MODULE 02 | ADVICE 0606-0610 | PAGE 11

Seek Active Defense First

Consider counterattack, exchange, central break, and forcing moves before passive protection.

MODULE 03 | ADVICE 0611-0615 | PAGE 17

Trade the Key Attacker

Exchange the unit that supplies checks, controls escapes, or supports the break.

MODULE 04 | ADVICE 0616-0620 | PAGE 23

Return Material to Kill Momentum

Give back part of an advantage to remove attackers, close lines, or reach a safe ending.

MODULE 05 | ADVICE 0621-0625 | PAGE 29

Create an Escape Square at the Right Time

Give the king useful luft when back-rank tactics are real and the pawn move does not create larger holes.

The searchable MASTER_ADVICE_INDEX.csv and MASTER_ADVICE_INDEX.html list every individual lesson across all twenty volumes.

MODULES 6-10

Volume roadmap

MODULE 06 | ADVICE 0626-0630 | PAGE 35

Block the Attacker's Best Line

Use a piece, pawn, or exchange to close the file or diagonal that carries force.

MODULE 07 | ADVICE 0631-0635 | PAGE 41

Give the King a Flight Route

Plan not only one escape square but a route away from checks and mating nets.

MODULE 08 | ADVICE 0636-0640 | PAGE 47

Make Prophylaxis Improve Something

Prefer preventive moves that also develop, centralize, create luft, or prepare your plan.

MODULE 09 | ADVICE 0641-0645 | PAGE 53

Defend the Entry Square, Not Every Target

Control the square or line through which the opponent must penetrate.

MODULE 10 | ADVICE 0646-0650 | PAGE 59

Reduce the Number of Problems

Choose a defense that removes threats and simplifies future decisions, even if it concedes something small.

The searchable MASTER_ADVICE_INDEX.csv and MASTER_ADVICE_INDEX.html list every individual lesson across all twenty volumes.

FIVE-PART MODULE | ADVICE 0601-0605

Name the Threat Precisely

CORE INSTRUCTION

State what the opponent will do, where, and with what consequence.

WHY IT WORKS

Precise diagnosis prevents wasting tempi on threats that are vague or nonexistent.

RECOGNITION CUES

Use whenever you feel under pressure.

BOUNDARY

Some moves create several conditional threats; list the urgent ones first.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0601 | MODULE 01 OF 10 | CORE ADVICE

Name the Threat Precisely - The Rule

COACH'S INSTRUCTION

State what the opponent will do, where, and with what consequence.

WHY IT IS LOGICALLY TRUE

Precise diagnosis prevents wasting tempi on threats that are vague or nonexistent.

USE IT WHEN

Use whenever you feel under pressure.

BOUNDARY / FAILURE MODE

Some moves create several conditional threats; list the urgent ones first.

QUESTION AT THE BOARD

What happens if I pass?

PRACTICAL DRILL

In twenty positions, write the opponent's next move and its consequence before defending.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0602 | MODULE 01 OF 10 | RECOGNITION

Name the Threat Precisely - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use whenever you feel under pressure.

WHY IT IS LOGICALLY TRUE

Precise diagnosis prevents wasting tempi on threats that are vague or nonexistent. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Some moves create several conditional threats; list the urgent ones first.

QUESTION AT THE BOARD

What happens if I pass?

PRACTICAL DRILL

Recognition drill: In twenty positions, write the opponent's next move and its consequence before defending. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0603 | MODULE 01 OF 10 | BOARD USE

Name the Threat Precisely - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'What happens if I pass?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: State what the opponent will do, where, and with what consequence.

WHY IT IS LOGICALLY TRUE

Precise diagnosis prevents wasting tempi on threats that are vague or nonexistent. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use whenever you feel under pressure.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. Some moves create several conditional threats; list the urgent ones first.

QUESTION AT THE BOARD

What happens if I pass?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0604 | MODULE 01 OF 10 | EXCEPTIONS

Name the Threat Precisely - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: Some moves create several conditional threats; list the urgent ones first.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Precise diagnosis prevents wasting tempi on threats that are vague or nonexistent.

USE IT WHEN

Use the normal rule under these conditions: Use whenever you feel under pressure. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: In twenty positions, write the opponent's next move and its consequence before defending. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0605 | MODULE 01 OF 10 | TRAINING

Name the Threat Precisely - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: State what the opponent will do, where, and with what consequence.

WHY IT IS LOGICALLY TRUE

Precise diagnosis prevents wasting tempi on threats that are vague or nonexistent. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: Some moves create several conditional threats; list the urgent ones first.

QUESTION AT THE BOARD

What happens if I pass?

PRACTICAL DRILL

In twenty positions, write the opponent's next move and its consequence before defending. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0606-0610

Seek Active Defense First

CORE INSTRUCTION

Consider counterattack, exchange, central break, and forcing moves before passive protection.

WHY IT WORKS

Activity makes the attacker spend tempi and can change the terms of the position.

RECOGNITION CUES

Use when the opponent's attack is not forced.

BOUNDARY

Counterplay that ignores mate or material loss is not defense.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0606 | MODULE 02 OF 10 | CORE ADVICE

Seek Active Defense First - The Rule

COACH'S INSTRUCTION

Consider counterattack, exchange, central break, and forcing moves before passive protection.

WHY IT IS LOGICALLY TRUE

Activity makes the attacker spend tempi and can change the terms of the position.

USE IT WHEN

Use when the opponent's attack is not forced.

BOUNDARY / FAILURE MODE

Counterplay that ignores mate or material loss is not defense.

QUESTION AT THE BOARD

Can I create a problem they must answer now?

PRACTICAL DRILL

For ten defensive positions, find one active and one passive defense, then compare.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0607 | MODULE 02 OF 10 | RECOGNITION

Seek Active Defense First - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use when the opponent's attack is not forced.

WHY IT IS LOGICALLY TRUE

Activity makes the attacker spend tempi and can change the terms of the position. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Counterplay that ignores mate or material loss is not defense.

QUESTION AT THE BOARD

Can I create a problem they must answer now?

PRACTICAL DRILL

Recognition drill: For ten defensive positions, find one active and one passive defense, then compare. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0608 | MODULE 02 OF 10 | BOARD USE

Seek Active Defense First - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'Can I create a problem they must answer now?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Consider counterattack, exchange, central break, and forcing moves before passive protection.

WHY IT IS LOGICALLY TRUE

Activity makes the attacker spend tempi and can change the terms of the position. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use when the opponent's attack is not forced.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. Counterplay that ignores mate or material loss is not defense.

QUESTION AT THE BOARD

Can I create a problem they must answer now?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0609 | MODULE 02 OF 10 | EXCEPTIONS

Seek Active Defense First - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: Counterplay that ignores mate or material loss is not defense.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Activity makes the attacker spend tempi and can change the terms of the position.

USE IT WHEN

Use the normal rule under these conditions: Use when the opponent's attack is not forced. Break it only when a calculated variation or clear contextual fact justifies the exception.

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: For ten defensive positions, find one active and one passive defense, then compare. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0610 | MODULE 02 OF 10 | TRAINING

Seek Active Defense First - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Consider counterattack, exchange, central break, and forcing moves before passive protection.

WHY IT IS LOGICALLY TRUE

Activity makes the attacker spend tempi and can change the terms of the position. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: Counterplay that ignores mate or material loss is not defense.

QUESTION AT THE BOARD

Can I create a problem they must answer now?

PRACTICAL DRILL

For ten defensive positions, find one active and one passive defense, then compare. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0611-0615

Trade the Key Attacker

CORE INSTRUCTION

Exchange the unit that supplies checks, controls escapes, or supports the break.

WHY IT WORKS

Removing one critical attacker can collapse a whole attacking network.

RECOGNITION CUES

Use when a favorable trade is available.

BOUNDARY

The recapture may open a line or bring another attacker closer.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0611 | MODULE 03 OF 10 | CORE ADVICE

Trade the Key Attacker - The Rule

COACH'S INSTRUCTION

Exchange the unit that supplies checks, controls escapes, or supports the break.

WHY IT IS LOGICALLY TRUE

Removing one critical attacker can collapse a whole attacking network.

USE IT WHEN

Use when a favorable trade is available.

BOUNDARY / FAILURE MODE

The recapture may open a line or bring another attacker closer.

QUESTION AT THE BOARD

Which enemy piece gives the attack its coherence?

PRACTICAL DRILL

Pause in defensive master games and predict the relieving exchange.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0612 | MODULE 03 OF 10 | RECOGNITION

Trade the Key Attacker - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use when a favorable trade is available.

WHY IT IS LOGICALLY TRUE

Removing one critical attacker can collapse a whole attacking network. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. The recapture may open a line or bring another attacker closer.

QUESTION AT THE BOARD

Which enemy piece gives the attack its coherence?

PRACTICAL DRILL

Recognition drill: Pause in defensive master games and predict the relieving exchange. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0613 | MODULE 03 OF 10 | BOARD USE

Trade the Key Attacker - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'Which enemy piece gives the attack its coherence?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Exchange the unit that supplies checks, controls escapes, or supports the break.

WHY IT IS LOGICALLY TRUE

Removing one critical attacker can collapse a whole attacking network. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use when a favorable trade is available.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. The recapture may open a line or bring another attacker closer.

QUESTION AT THE BOARD

Which enemy piece gives the attack its coherence?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0614 | MODULE 03 OF 10 | EXCEPTIONS

Trade the Key Attacker - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: The recapture may open a line or bring another attacker closer.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Removing one critical attacker can collapse a whole attacking network.

USE IT WHEN

Use the normal rule under these conditions: Use when a favorable trade is available. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: Pause in defensive master games and predict the relieving exchange. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

Trade the Key Attacker - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Exchange the unit that supplies checks, controls escapes, or supports the break.

WHY IT IS LOGICALLY TRUE

Removing one critical attacker can collapse a whole attacking network. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: The recapture may open a line or bring another attacker closer.

QUESTION AT THE BOARD

Which enemy piece gives the attack its coherence?

PRACTICAL DRILL

Pause in defensive master games and predict the relieving exchange. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0616-0620

Return Material to Kill Momentum

CORE INSTRUCTION

Give back part of an advantage to remove attackers, close lines, or reach a safe ending.

WHY IT WORKS

Material has value only if the position survives; a controlled refund can buy coordination and time.

RECOGNITION CUES

Use when ahead but under severe pressure.

BOUNDARY

Do not panic-sacrifice if accurate defense preserves both material and safety.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0616 | MODULE 04 OF 10 | CORE ADVICE

Return Material to Kill Momentum - The Rule

COACH'S INSTRUCTION

Give back part of an advantage to remove attackers, close lines, or reach a safe ending.

WHY IT IS LOGICALLY TRUE

Material has value only if the position survives; a controlled refund can buy coordination and time.

USE IT WHEN

Use when ahead but under severe pressure.

BOUNDARY / FAILURE MODE

Do not panic-sacrifice if accurate defense preserves both material and safety.

QUESTION AT THE BOARD

What is the cheapest concession that ends the attack?

PRACTICAL DRILL

Study ten defensive exchanges of material and evaluate the remaining position.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0617 | MODULE 04 OF 10 | RECOGNITION

Return Material to Kill Momentum - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use when ahead but under severe pressure.

WHY IT IS LOGICALLY TRUE

Material has value only if the position survives; a controlled refund can buy coordination and time. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: Do not panic-sacrifice if accurate defense preserves both material and safety.

QUESTION AT THE BOARD

What is the cheapest concession that ends the attack?

PRACTICAL DRILL

Study ten defensive exchanges of material and evaluate the remaining position. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0621-0625

Create an Escape Square at the Right Time

CORE INSTRUCTION

Give the king useful luft when back-rank tactics are real and the pawn move does not create larger holes.

WHY IT WORKS

One flight square can neutralize checks and free heavy pieces from defensive duty.

RECOGNITION CUES

Use before heavy-piece trades or infiltration.

BOUNDARY

Luft costs a tempo and weakens squares, so prophylaxis must answer a real future.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0621 | MODULE 05 OF 10 | CORE ADVICE

Create an Escape Square at the Right Time - The Rule

COACH'S INSTRUCTION

Give the king useful luft when back-rank tactics are real and the pawn move does not create larger holes.

WHY IT IS LOGICALLY TRUE

One flight square can neutralize checks and free heavy pieces from defensive duty.

USE IT WHEN

Use before heavy-piece trades or infiltration.

BOUNDARY / FAILURE MODE

Luft costs a tempo and weakens squares, so prophylaxis must answer a real future.

QUESTION AT THE BOARD

Which checking pattern disappears after this pawn move?

PRACTICAL DRILL

Audit back-rank moments in your own games and test alternative timing.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0622 | MODULE 05 OF 10 | RECOGNITION

Create an Escape Square at the Right Time - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use before heavy-piece trades or infiltration.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0626-0630

Block the Attacker's Best Line

CORE INSTRUCTION

Use a piece, pawn, or exchange to close the file or diagonal that carries force.

WHY IT WORKS

Access is a prerequisite for attack; blocking can make superior enemy force irrelevant.

RECOGNITION CUES

Use against batteries and open files.

BOUNDARY

A blockader can be pinned, sacrificed on, or overloaded.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0626 | MODULE 06 OF 10 | CORE ADVICE

Block the Attacker's Best Line - The Rule

COACH'S INSTRUCTION

Use a piece, pawn, or exchange to close the file or diagonal that carries force.

WHY IT IS LOGICALLY TRUE

Access is a prerequisite for attack; blocking can make superior enemy force irrelevant.

USE IT WHEN

Use against batteries and open files.

BOUNDARY / FAILURE MODE

A blockader can be pinned, sacrificed on, or overloaded.

QUESTION AT THE BOARD

Can the line be closed more cheaply than the target can be defended?

PRACTICAL DRILL

Practice identifying the one line that must remain closed in king attacks.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0627 | MODULE 06 OF 10 | RECOGNITION

Block the Attacker's Best Line - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use against batteries and open files.

Can the line be closed more cheaply than the target can be defended?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0629 | MODULE 06 OF 10 | EXCEPTIONS

Block the Attacker's Best Line - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: A blockader can be pinned, sacrificed on, or overloaded.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Access is a prerequisite for attack; blocking can make superior enemy force irrelevant.

USE IT WHEN

Use the normal rule under these conditions: Use against batteries and open files. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: Practice identifying the one line that must remain closed in king attacks. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0630 | MODULE 06 OF 10 | TRAINING

Block the Attacker's Best Line - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Use a piece, pawn, or exchange to close the file or diagonal that carries force.

WHY IT IS LOGICALLY TRUE

Access is a prerequisite for attack; blocking can make superior enemy force irrelevant. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: A blockader can be pinned, sacrificed on, or overloaded.

QUESTION AT THE BOARD

Can the line be closed more cheaply than the target can be defended?

PRACTICAL DRILL

Practice identifying the one line that must remain closed in king attacks. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0631-0635

Give the King a Flight Route

CORE INSTRUCTION

Plan not only one escape square but a route away from checks and mating nets.

WHY IT WORKS

A mobile king creates branching defenses and reduces the force of checking sequences.

RECOGNITION CUES

Use when direct shelter cannot be restored.

BOUNDARY

Walking into the center can meet new checks; calculate the entire route.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0631 | MODULE 07 OF 10 | CORE ADVICE

Give the King a Flight Route - The Rule

COACH'S INSTRUCTION

Plan not only one escape square but a route away from checks and mating nets.

WHY IT IS LOGICALLY TRUE

A mobile king creates branching defenses and reduces the force of checking sequences.

USE IT WHEN

Use when direct shelter cannot be restored.

BOUNDARY / FAILURE MODE

Walking into the center can meet new checks; calculate the entire route.

QUESTION AT THE BOARD

Where will the king be safe two moves later?

PRACTICAL DRILL

Trace king routes in ten defensive studies before moving any piece.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0632 | MODULE 07 OF 10 | RECOGNITION

Give the King a Flight Route - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use when direct shelter cannot be restored.

WHY IT IS LOGICALLY TRUE

A mobile king creates branching defenses and reduces the force of checking sequences. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Walking into the center can meet new checks; calculate the entire route.

QUESTION AT THE BOARD

Where will the king be safe two moves later?

PRACTICAL DRILL

Recognition drill: Trace king routes in ten defensive studies before moving any piece. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0633 | MODULE 07 OF 10 | BOARD USE

Give the King a Flight Route - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'Where will the king be safe two moves later?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Plan not only one escape square but a route away from checks and mating nets.

WHY IT IS LOGICALLY TRUE

A mobile king creates branching defenses and reduces the force of checking sequences. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use when direct shelter cannot be restored.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. Walking into the center can meet new checks; calculate the entire route.

QUESTION AT THE BOARD

Where will the king be safe two moves later?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0634 | MODULE 07 OF 10 | EXCEPTIONS

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0636-0640

Make Prophylaxis Improve Something

CORE INSTRUCTION

Prefer preventive moves that also develop, centralize, create luft, or prepare your plan.

WHY IT WORKS

Dual-purpose defense preserves the initiative and reduces the cost of caution.

RECOGNITION CUES

Use against slow opponent ideas.

BOUNDARY

An urgent threat may require an ugly single-purpose move.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0636 | MODULE 08 OF 10 | CORE ADVICE

Make Prophylaxis Improve Something - The Rule

COACH'S INSTRUCTION

Prefer preventive moves that also develop, centralize, create luft, or prepare your plan.

WHY IT IS LOGICALLY TRUE

Dual-purpose defense preserves the initiative and reduces the cost of caution.

USE IT WHEN

Use against slow opponent ideas.

BOUNDARY / FAILURE MODE

An urgent threat may require an ugly single-purpose move.

QUESTION AT THE BOARD

Can I stop their idea while advancing mine?

PRACTICAL DRILL

For fifteen positions, find a pure defense and a dual-purpose alternative.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0637 | MODULE 08 OF 10 | RECOGNITION

Make Prophylaxis Improve Something - How to Notice It

FIVE-PART MODULE | ADVICE 0641-0645

Defend the Entry Square, Not Every Target

CORE INSTRUCTION

Control the square or line through which the opponent must penetrate.

WHY IT WORKS

Chokepoint defense uses one resource to protect several weaknesses.

RECOGNITION CUES

Use against files, outposts, and king invasions.

BOUNDARY

The attacker may switch entry points; retain flexibility.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0641 | MODULE 09 OF 10 | CORE ADVICE

Defend the Entry Square, Not Every Target - The Rule

COACH'S INSTRUCTION

Control the square or line through which the opponent must penetrate.

WHY IT IS LOGICALLY TRUE

Chokepoint defense uses one resource to protect several weaknesses.

USE IT WHEN

Use against files, outposts, and king invasions.

BOUNDARY / FAILURE MODE

The attacker may switch entry points; retain flexibility.

QUESTION AT THE BOARD

Where must the enemy piece arrive to make the threat real?

PRACTICAL DRILL

Mark entry squares in strategic attacks and assign the cheapest defender.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0642 | MODULE 09 OF 10 | RECOGNITION

Defend the Entry Square, Not Every Target - How to Notice It

FIVE-PART MODULE | ADVICE 0646-0650

Reduce the Number of Problems

CORE INSTRUCTION

Choose a defense that removes threats and simplifies future decisions, even if it concedes something small.

WHY IT WORKS

Defenders fail when several weaknesses demand simultaneous attention.

RECOGNITION CUES

Use in worse positions and time pressure.

BOUNDARY

Excessive simplification can enter a technically lost ending.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0646 | MODULE 10 OF 10 | CORE ADVICE

Reduce the Number of Problems - The Rule

COACH'S INSTRUCTION

Choose a defense that removes threats and simplifies future decisions, even if it concedes something small.

WHY IT IS LOGICALLY TRUE

Defenders fail when several weaknesses demand simultaneous attention.

USE IT WHEN

Use in worse positions and time pressure.

BOUNDARY / FAILURE MODE

Excessive simplification can enter a technically lost ending.

QUESTION AT THE BOARD

Which move leaves me with the fewest urgent tasks next turn?

PRACTICAL DRILL

Compare defensive candidates by counting the opponent's serious options afterward.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0647 | MODULE 10 OF 10 | RECOGNITION

Reduce the Number of Problems - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use in worse positions and time pressure.

WHY IT IS LOGICALLY TRUE

Defenders fail when several weaknesses demand simultaneous attention. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

MEMORY HOOK | What you retrieve is what you can use.

RETRIEVAL TEST

Can you coach yourself through all ten modules?

01 Name the Threat Precisely

What happens if I pass?

02 Seek Active Defense First

Can I create a problem they must answer now?

03 Trade the Key Attacker

Which enemy piece gives the attack its coherence?

04 Return Material to Kill Momentum

What is the cheapest concession that ends the attack?

05 Create an Escape Square at the Right Time

Which checking pattern disappears after this pawn move?

06 Block the Attacker's Best Line

Can the line be closed more cheaply than the target can be defended?

07 Give the King a Flight Route

Where will the king be safe two moves later?

08 Make Prophylaxis Improve Something

Can I stop their idea while advancing mine?

09 Defend the Entry Square, Not Every Target

Where must the enemy piece arrive to make the threat real?

10 Reduce the Number of Problems

Which move leaves me with the fewest urgent tasks next turn?

Pass standard: state the core advice, explain the causal reason, name one exception, and apply the board question to a fresh position.
