Planning and Position Transitions

Turn evaluation into an executable sequence

INSIDE THIS VOLUME

50

coaching lessons

10

five-part modules

66

phone-friendly pages

Original teaching synthesis: practical advice, logical reasons, limits, board questions, and drills.

THE COACH-IN-YOUR-EAR METHOD

Advice becomes strength only when you can retrieve and apply it.

1. LEARN THE CAUSAL CHAIN

Read the instruction, then explain why it should work. If you cannot connect board feature to move and consequence, you have memorized a slogan rather than learned a tool.

2. USE ALL FIVE LESSONS

Each module separates the core rule, recognition cues, an over-the-board routine, limits and exceptions, and a training habit. Study the set as one skill.

3. RETRIEVE FROM A POSITION

Hide the page, set up a board, and answer the board question before choosing a move. Recognition under uncertainty is the bridge from reading to playing.

4. VERIFY CONCRETE CHESS

Advice organizes attention; it never overrules legality, tactics, or exact calculation. Test the opponent's strongest forcing reply before acting.

5. SPACE THE REVIEWS

Review the module after 1, 3, 7, 14, and 30 days. Mark it learned only when you can state the idea, its boundary, and a real game example without looking.

These are original synthesized lessons, not quotations attributed to any particular grandmaster. The course distills widely established chess reasoning into a practical curriculum.

MODULES 1-5

Volume roadmap

MODULE 01 | ADVICE 0651-0655 | PAGE 5

Build Plans from Imbalances

Base plans on material, king safety, activity, structure, space, and weak squares.

MODULE 02 | ADVICE 0656-0660 | PAGE 11

Choose a Target Position

Describe the piece placement or structure you want before selecting a route.

MODULE 03 | ADVICE 0661-0665 | PAGE 17

Plan in Short Units

Think two or three moves toward a clear goal, then reassess.

MODULE 04 | ADVICE 0666-0670 | PAGE 23

Prepare the Transformation

Improve pieces before a break, exchange, or sacrifice that changes the structure.

MODULE 05 | ADVICE 0671-0675 | PAGE 29

Reassess After Pawn Moves and Exchanges

Treat every structural change as a new planning position.

The searchable MASTER_ADVICE_INDEX.csv and MASTER_ADVICE_INDEX.html list every individual lesson across all twenty volumes.

MODULES 6-10

Volume roadmap

MODULE 06 | ADVICE 0676-0680 | PAGE 35

Use the Opponent's Plan as a Clock

Estimate how many moves remain before their break, invasion, or regrouping becomes effective.

MODULE 07 | ADVICE 0681-0685 | PAGE 41

Improve with Multipurpose Moves

Prefer moves that strengthen more than one piece, square, or plan.

MODULE 08 | ADVICE 0686-0690 | PAGE 47

Keep an Exit Ramp

Before committing, know how you will consolidate, simplify, or switch wings if the plan is blocked.

MODULE 09 | ADVICE 0691-0695 | PAGE 53

Convert One Advantage into Another

Trade temporary initiative for material, space for an outpost, or structural pressure for a favorable ending.

MODULE 10 | ADVICE 0696-0700 | PAGE 59

Know When the Plan Is Finished

Stop executing a plan once its target is achieved, impossible, or no longer relevant.

The searchable MASTER_ADVICE_INDEX.csv and MASTER_ADVICE_INDEX.html list every individual lesson across all twenty volumes.

FIVE-PART MODULE | ADVICE 0651-0655

Build Plans from Imbalances

CORE INSTRUCTION

Base plans on material, king safety, activity, structure, space, and weak squares.

WHY IT WORKS

Durable differences explain where progress is possible.

RECOGNITION CUES

Use when no forcing line dominates.

BOUNDARY

A static plan must yield to immediate tactics.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0651 | MODULE 01 OF 10 | CORE ADVICE

Build Plans from Imbalances - The Rule

COACH'S INSTRUCTION

Base plans on material, king safety, activity, structure, space, and weak squares.

WHY IT IS LOGICALLY TRUE

Durable differences explain where progress is possible.

USE IT WHEN

Use when no forcing line dominates.

BOUNDARY / FAILURE MODE

A static plan must yield to immediate tactics.

QUESTION AT THE BOARD

Which imbalance can I improve or exploit?

PRACTICAL DRILL

In twenty positions, name the main imbalance and one plan for each side.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0652 | MODULE 01 OF 10 | RECOGNITION

Build Plans from Imbalances - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use when no forcing line dominates.

WHY IT IS LOGICALLY TRUE

Durable differences explain where progress is possible. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. A static plan must yield to immediate tactics.

QUESTION AT THE BOARD

Which imbalance can I improve or exploit?

PRACTICAL DRILL

Recognition drill: In twenty positions, name the main imbalance and one plan for each side. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0653 | MODULE 01 OF 10 | BOARD USE

Build Plans from Imbalances - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'Which imbalance can I improve or exploit?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Base plans on material, king safety, activity, structure, space, and weak squares.

WHY IT IS LOGICALLY TRUE

Durable differences explain where progress is possible. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use when no forcing line dominates.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. A static plan must yield to immediate tactics.

QUESTION AT THE BOARD

Which imbalance can I improve or exploit?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0654 | MODULE 01 OF 10 | EXCEPTIONS

Build Plans from Imbalances - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: A static plan must yield to immediate tactics.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Durable differences explain where progress is possible.

USE IT WHEN

Use the normal rule under these conditions: Use when no forcing line dominates. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: In twenty positions, name the main imbalance and one plan for each side. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0655 | MODULE 01 OF 10 | TRAINING

Build Plans from Imbalances - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Base plans on material, king safety, activity, structure, space, and weak squares.

WHY IT IS LOGICALLY TRUE

Durable differences explain where progress is possible. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: A static plan must yield to immediate tactics.

QUESTION AT THE BOARD

Which imbalance can I improve or exploit?

PRACTICAL DRILL

In twenty positions, name the main imbalance and one plan for each side. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0656-0660

Choose a Target Position

CORE INSTRUCTION

Describe the piece placement or structure you want before selecting a route.

WHY IT WORKS

A destination lets you compare move orders and detect when the position changes.

RECOGNITION CUES

Use for maneuvers and conversions.

BOUNDARY

The target must remain conditional on the opponent's play.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0656 | MODULE 02 OF 10 | CORE ADVICE

Choose a Target Position - The Rule

COACH'S INSTRUCTION

Describe the piece placement or structure you want before selecting a route.

WHY IT IS LOGICALLY TRUE

A destination lets you compare move orders and detect when the position changes.

USE IT WHEN

Use for maneuvers and conversions.

BOUNDARY / FAILURE MODE

The target must remain conditional on the opponent's play.

QUESTION AT THE BOARD

What would the improved version of this position look like?

PRACTICAL DRILL

Draw an ideal placement, then count realistic tempi to reach it.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0657 | MODULE 02 OF 10 | RECOGNITION

Choose a Target Position - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use for maneuvers and conversions.

WHY IT IS LOGICALLY TRUE

A destination lets you compare move orders and detect when the position changes. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. The target must remain conditional on the opponent's play.

QUESTION AT THE BOARD

What would the improved version of this position look like?

PRACTICAL DRILL

Recognition drill: Draw an ideal placement, then count realistic tempi to reach it. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0658 | MODULE 02 OF 10 | BOARD USE

Choose a Target Position - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'What would the improved version of this position look like?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Describe the piece placement or structure you want before selecting a route.

WHY IT IS LOGICALLY TRUE

A destination lets you compare move orders and detect when the position changes. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use for maneuvers and conversions.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. The target must remain conditional on the opponent's play.

QUESTION AT THE BOARD

What would the improved version of this position look like?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0659 | MODULE 02 OF 10 | EXCEPTIONS

Choose a Target Position - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: The target must remain conditional on the opponent's play.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. A destination lets you compare move orders and detect when the position changes.

USE IT WHEN

Use the normal rule under these conditions: Use for maneuvers and conversions. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: Draw an ideal placement, then count realistic tempi to reach it. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0660 | MODULE 02 OF 10 | TRAINING

Choose a Target Position - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Describe the piece placement or structure you want before selecting a route.

WHY IT IS LOGICALLY TRUE

A destination lets you compare move orders and detect when the position changes. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: The target must remain conditional on the opponent's play.

QUESTION AT THE BOARD

What would the improved version of this position look like?

PRACTICAL DRILL

Draw an ideal placement, then count realistic tempi to reach it. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0661-0665

Plan in Short Units

CORE INSTRUCTION

Think two or three moves toward a clear goal, then reassess.

WHY IT WORKS

Opponents alter the position; short plans preserve direction without pretending control.

RECOGNITION CUES

Use in non-forcing play.

BOUNDARY

Forced sequences may be longer and require exact calculation.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0661 | MODULE 03 OF 10 | CORE ADVICE

Plan in Short Units - The Rule

COACH'S INSTRUCTION

Think two or three moves toward a clear goal, then reassess.

WHY IT IS LOGICALLY TRUE

Opponents alter the position; short plans preserve direction without pretending control.

USE IT WHEN

Use in non-forcing play.

BOUNDARY / FAILURE MODE

Forced sequences may be longer and require exact calculation.

QUESTION AT THE BOARD

What is my next small improvement, not my ten-move fantasy?

PRACTICAL DRILL

Write three-move plans in training games and score how often they remain relevant.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0662 | MODULE 03 OF 10 | RECOGNITION

Plan in Short Units - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use in non-forcing play.

WHY IT IS LOGICALLY TRUE

Opponents alter the position; short plans preserve direction without pretending control. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Forced sequences may be longer and require exact calculation.

QUESTION AT THE BOARD

What is my next small improvement, not my ten-move fantasy?

PRACTICAL DRILL

Recognition drill: Write three-move plans in training games and score how often they remain relevant. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

Plan in Short Units - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'What is my next small improvement, not my ten-move fantasy?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Think two or three moves toward a clear goal, then reassess.

Write three-move plans in training games and score how often they remain relevant. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0666-0670

Prepare the Transformation

CORE INSTRUCTION

Improve pieces before a break, exchange, or sacrifice that changes the structure.

WHY IT WORKS

The side whose pieces fit the new position gains the first-move advantage after transition.

RECOGNITION CUES

Use before irreversible changes.

BOUNDARY

Waiting can miss the moment; urgency may justify imperfect preparation.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0666 | MODULE 04 OF 10 | CORE ADVICE

Prepare the Transformation - The Rule

COACH'S INSTRUCTION

Improve pieces before a break, exchange, or sacrifice that changes the structure.

WHY IT IS LOGICALLY TRUE

The side whose pieces fit the new position gains the first-move advantage after transition.

USE IT WHEN

Use before irreversible changes.

BOUNDARY / FAILURE MODE

Waiting can miss the moment; urgency may justify imperfect preparation.

QUESTION AT THE BOARD

Who is better placed for the position after the change?

PRACTICAL DRILL

Compare immediate versus prepared breaks in ten master games.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0667 | MODULE 04 OF 10 | RECOGNITION

Prepare the Transformation - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use before irreversible changes.

WHY IT IS LOGICALLY TRUE

The side whose pieces fit the new position gains the first-move advantage after transition. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

Compare immediate versus prepared breaks in ten master games. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0671-0675

Reassess After Pawn Moves and Exchanges

CORE INSTRUCTION

Treat every structural change as a new planning position.

WHY IT WORKS

Old targets, files, and good pieces may disappear after transformation.

RECOGNITION CUES

Use immediately after central trades and breaks.

BOUNDARY

If the position transposes exactly, the prior plan may survive.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0671 | MODULE 05 OF 10 | CORE ADVICE

Reassess After Pawn Moves and Exchanges - The Rule

COACH'S INSTRUCTION

Treat every structural change as a new planning position.

WHY IT IS LOGICALLY TRUE

Old targets, files, and good pieces may disappear after transformation.

USE IT WHEN

Use immediately after central trades and breaks.

BOUNDARY / FAILURE MODE

If the position transposes exactly, the prior plan may survive.

QUESTION AT THE BOARD

Which old assumption is no longer true?

PRACTICAL DRILL

Pause after every pawn exchange in a model game and rewrite the plan.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0672 | MODULE 05 OF 10 | RECOGNITION

Reassess After Pawn Moves and Exchanges - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use immediately after central trades and breaks.

WHY IT IS LOGICALLY TRUE

Old targets, files, and good pieces may disappear after transformation. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

ADVICE 0675 | MODULE 05 OF 10 | TRAINING

Reassess After Pawn Moves and Exchanges - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Treat every structural change as a new planning position.

WHY IT IS LOGICALLY TRUE

Old targets, files, and good pieces may disappear after transformation. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: If the position transposes exactly, the prior plan may survive.

QUESTION AT THE BOARD

Which old assumption is no longer true?

PRACTICAL DRILL

Pause after every pawn exchange in a model game and rewrite the plan. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0676-0680

Use the Opponent's Plan as a Clock

CORE INSTRUCTION

Estimate how many moves remain before their break, invasion, or regrouping becomes effective.

WHY IT WORKS

Strategic plans compete in time; a good slow plan can still lose the race.

RECOGNITION CUES

Use when both sides maneuver on different wings.

BOUNDARY

Tactical resources can reset the clock.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0676 | MODULE 06 OF 10 | CORE ADVICE

Use the Opponent's Plan as a Clock - The Rule

COACH'S INSTRUCTION

Estimate how many moves remain before their break, invasion, or regrouping becomes effective.

WHY IT IS LOGICALLY TRUE

Strategic plans compete in time; a good slow plan can still lose the race.

USE IT WHEN

Use when both sides maneuver on different wings.

BOUNDARY / FAILURE MODE

Tactical resources can reset the clock.

QUESTION AT THE BOARD

How many useful moves do I truly have?

PRACTICAL DRILL

In ten race positions, count preparation tempi for both plans.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0677 | MODULE 06 OF 10 | RECOGNITION

Use the Opponent's Plan as a Clock - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use when both sides maneuver on different wings.

WHY IT IS LOGICALLY TRUE

Strategic plans compete in time; a good slow plan can still lose the race. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Tactical resources can reset the clock.

QUESTION AT THE BOARD

How many useful moves do I truly have?

PRACTICAL DRILL

Recognition drill: In ten race positions, count preparation tempi for both plans. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0678 | MODULE 06 OF 10 | BOARD USE

Use the Opponent's Plan as a Clock - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'How many useful moves do I truly have?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Estimate how many moves remain before their break, invasion, or regrouping becomes effective.

WHY IT IS LOGICALLY TRUE

Strategic plans compete in time; a good slow plan can still lose the race. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use when both sides maneuver on different wings.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. Tactical resources can reset the clock.

QUESTION AT THE BOARD

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0679 | MODULE 06 OF 10 | EXCEPTIONS

Use the Opponent's Plan as a Clock - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: Tactical resources can reset the clock.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Strategic plans compete in time; a good slow plan can still lose the race.

USE IT WHEN

Use the normal rule under these conditions: Use when both sides maneuver on different wings. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: In ten race positions, count preparation tempi for both plans. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0680 | MODULE 06 OF 10 | TRAINING

Use the Opponent's Plan as a Clock - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Estimate how many moves remain before their break, invasion, or regrouping becomes effective.

WHY IT IS LOGICALLY TRUE

Strategic plans compete in time; a good slow plan can still lose the race. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: Tactical resources can reset the clock.

QUESTION AT THE BOARD

How many useful moves do I truly have?

PRACTICAL DRILL

In ten race positions, count preparation tempi for both plans. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0681-0685

Improve with Multipurpose Moves

CORE INSTRUCTION

Prefer moves that strengthen more than one piece, square, or plan.

WHY IT WORKS

Efficient moves preserve options and make defense harder.

RECOGNITION CUES

Use in quiet positions.

BOUNDARY

A single urgent weakness may require a dedicated move.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0681 | MODULE 07 OF 10 | CORE ADVICE

Improve with Multipurpose Moves - The Rule

COACH'S INSTRUCTION

Prefer moves that strengthen more than one piece, square, or plan.

WHY IT IS LOGICALLY TRUE

Efficient moves preserve options and make defense harder.

USE IT WHEN

Use in quiet positions.

BOUNDARY / FAILURE MODE

A single urgent weakness may require a dedicated move.

QUESTION AT THE BOARD

What second benefit does this move create?

PRACTICAL DRILL

Annotate master maneuvers by listing every function of the move.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0682 | MODULE 07 OF 10 | RECOGNITION

Improve with Multipurpose Moves - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use in quiet positions.

WHY IT IS LOGICALLY TRUE

Efficient moves preserve options and make defense harder. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. A single urgent weakness may require a dedicated move.

QUESTION AT THE BOARD

What second benefit does this move create?

PRACTICAL DRILL

Recognition drill: Annotate master maneuvers by listing every function of the move. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0683 | MODULE 07 OF 10 | BOARD USE

Improve with Multipurpose Moves - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'What second benefit does this move create?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Prefer moves that strengthen more than one piece, square, or plan.

WHY IT IS LOGICALLY TRUE

Efficient moves preserve options and make defense harder. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use in quiet positions.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. A single urgent weakness may require a dedicated move.

QUESTION AT THE BOARD

What second benefit does this move create?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0684 | MODULE 07 OF 10 | EXCEPTIONS

Improve with Multipurpose Moves - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: A single urgent weakness may require a dedicated move.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Efficient moves preserve options and make defense harder.

USE IT WHEN

Use the normal rule under these conditions: Use in quiet positions. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: Annotate master maneuvers by listing every function of the move. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0685 | MODULE 07 OF 10 | TRAINING

Improve with Multipurpose Moves - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Prefer moves that strengthen more than one piece, square, or plan.

WHY IT IS LOGICALLY TRUE

Efficient moves preserve options and make defense harder. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: A single urgent weakness may require a dedicated move.

QUESTION AT THE BOARD

What second benefit does this move create?

PRACTICAL DRILL

Annotate master maneuvers by listing every function of the move. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0686-0690

Keep an Exit Ramp

CORE INSTRUCTION

Before committing, know how you will consolidate, simplify, or switch wings if the plan is blocked.

WHY IT WORKS

Flexible plans avoid being trapped by one defensive setup.

RECOGNITION CUES

Use before pawn storms and long maneuvers.

BOUNDARY

Some forced opportunities demand full commitment.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0686 | MODULE 08 OF 10 | CORE ADVICE

Keep an Exit Ramp - The Rule

COACH'S INSTRUCTION

Before committing, know how you will consolidate, simplify, or switch wings if the plan is blocked.

WHY IT IS LOGICALLY TRUE

Flexible plans avoid being trapped by one defensive setup.

USE IT WHEN

Use before pawn storms and long maneuvers.

BOUNDARY / FAILURE MODE

Some forced opportunities demand full commitment.

QUESTION AT THE BOARD

If they stop my first idea, what useful position remains?

PRACTICAL DRILL

For each planned operation, write one fallback plan.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0687 | MODULE 08 OF 10 | RECOGNITION

Keep an Exit Ramp - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use before pawn storms and long maneuvers.

WHY IT IS LOGICALLY TRUE

Flexible plans avoid being trapped by one defensive setup. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0691-0695

Convert One Advantage into Another

CORE INSTRUCTION

Trade temporary initiative for material, space for an outpost, or structural pressure for a favorable ending.

WHY IT WORKS

Advantages change form; conversion preserves value when the original asset is expiring.

RECOGNITION CUES

Use when the opponent is close to neutralizing your edge.

BOUNDARY

A conversion is bad if the new advantage is too small or unusable.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0691 | MODULE 09 OF 10 | CORE ADVICE

Convert One Advantage into Another - The Rule

COACH'S INSTRUCTION

Trade temporary initiative for material, space for an outpost, or structural pressure for a favorable ending.

WHY IT IS LOGICALLY TRUE

Advantages change form; conversion preserves value when the original asset is expiring.

USE IT WHEN

Use when the opponent is close to neutralizing your edge.

BOUNDARY / FAILURE MODE

A conversion is bad if the new advantage is too small or unusable.

QUESTION AT THE BOARD

Which durable asset can replace my temporary one?

PRACTICAL DRILL

Identify the advantage transformations in ten annotated wins.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0692 | MODULE 09 OF 10 | RECOGNITION

Convert One Advantage into Another - How to Notice It

COACH'S INSTRUCTION

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0696-0700

Know When the Plan Is Finished

CORE INSTRUCTION

Stop executing a plan once its target is achieved, impossible, or no longer relevant.

WHY IT WORKS

Mechanical continuation wastes tempi and can turn strength into overextension.

RECOGNITION CUES

Use after a successful break, exchange, or defensive change.

BOUNDARY

Momentum may support a second linked operation, but reassess first.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0696 | MODULE 10 OF 10 | CORE ADVICE

Know When the Plan Is Finished - The Rule

COACH'S INSTRUCTION

Stop executing a plan once its target is achieved, impossible, or no longer relevant.

WHY IT IS LOGICALLY TRUE

Mechanical continuation wastes tempi and can turn strength into overextension.

USE IT WHEN

Use after a successful break, exchange, or defensive change.

BOUNDARY / FAILURE MODE

Momentum may support a second linked operation, but reassess first.

QUESTION AT THE BOARD

Has the problem I designed this plan to solve changed?

PRACTICAL DRILL

In your games, mark the move where each plan should have ended.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0697 | MODULE 10 OF 10 | RECOGNITION

Know When the Plan Is Finished - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use after a successful break, exchange, or defensive change.

Has the problem I designed this plan to solve changed?

PRACTICAL DRILL

In your games, mark the move where each plan should have ended. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

RETRIEVAL TEST

Can you coach yourself through all ten modules?

01 Build Plans from Imbalances

Which imbalance can I improve or exploit?

02 Choose a Target Position

What would the improved version of this position look like?

03 Plan in Short Units

What is my next small improvement, not my ten-move fantasy?

04 Prepare the Transformation

Who is better placed for the position after the change?

05 Reassess After Pawn Moves and Exchanges

Which old assumption is no longer true?

06 Use the Opponent's Plan as a Clock

How many useful moves do I truly have?

07 Improve with Multipurpose Moves

What second benefit does this move create?

08 Keep an Exit Ramp

If they stop my first idea, what useful position remains?

09 Convert One Advantage into Another

Which durable asset can replace my temporary one?

10 Know When the Plan Is Finished

Has the problem I designed this plan to solve changed?

Pass standard: state the core advice, explain the causal reason, name one exception, and apply the board question to a fresh position.
