Clock Management and Practical Decisions

Spend time where it can change the result

INSIDE THIS VOLUME

50

coaching lessons

10

five-part modules

66

phone-friendly pages

Original teaching synthesis: practical advice, logical reasons, limits, board questions, and drills.

THE COACH-IN-YOUR-EAR METHOD

Advice becomes strength only when you can retrieve and apply it.

1. LEARN THE CAUSAL CHAIN

Read the instruction, then explain why it should work. If you cannot connect board feature to move and consequence, you have memorized a slogan rather than learned a tool.

2. USE ALL FIVE LESSONS

Each module separates the core rule, recognition cues, an over-the-board routine, limits and exceptions, and a training habit. Study the set as one skill.

3. RETRIEVE FROM A POSITION

Hide the page, set up a board, and answer the board question before choosing a move. Recognition under uncertainty is the bridge from reading to playing.

4. VERIFY CONCRETE CHESS

Advice organizes attention; it never overrules legality, tactics, or exact calculation. Test the opponent's strongest forcing reply before acting.

5. SPACE THE REVIEWS

Review the module after 1, 3, 7, 14, and 30 days. Mark it learned only when you can state the idea, its boundary, and a real game example without looking.

These are original synthesized lessons, not quotations attributed to any particular grandmaster. The course distills widely established chess reasoning into a practical curriculum.

MODULES 1-5

Volume roadmap

MODULE 01 | ADVICE 0751-0755 | PAGE 5

Budget Time by Decision Difficulty

Spend more time on irreversible, tactical, and structurally critical choices than on routine moves.

MODULE 02 | ADVICE 0756-0760 | PAGE 11

Preserve a Reserve for the Finish

Keep enough time for late middlegame tactics and technical endings.

MODULE 03 | ADVICE 0761-0765 | PAGE 17

Recognize Critical Moments

Slow down when the center changes, queens enter, sacrifices appear, or a major exchange is offered.

MODULE 04 | ADVICE 0766-0770 | PAGE 23

Use Opponent Time Productively

Analyze their threats, your likely candidates, and the position's main problem while their clock runs.

MODULE 05 | ADVICE 0771-0775 | PAGE 29

Set a Decision Deadline

Give yourself a stopping point after adequate candidate comparison and verification.

The searchable MASTER_ADVICE_INDEX.csv and MASTER_ADVICE_INDEX.html list every individual lesson across all twenty volumes.

MODULES 6-10

Volume roadmap

MODULE 06 | ADVICE 0776-0780 | PAGE 35

Simplify the Process in Time Trouble

Use a compact scan: threat, forcing moves, loose pieces, safest candidate, final check.

MODULE 07 | ADVICE 0781-0785 | PAGE 41

Avoid Instant Recaptures

Spend a brief pause checking intermediate moves and alternative recaptures even when the answer looks forced.

MODULE 08 | ADVICE 0786-0790 | PAGE 47

Use Increment Wisely

Complete a safe decision within the increment when possible instead of spending the entire reserve on routine moves.

MODULE 09 | ADVICE 0791-0795 | PAGE 53

Make Practical Choices Under Uncertainty

When objective evaluations are close, choose the line with clearer plans and manageable risk.

MODULE 10 | ADVICE 0796-0800 | PAGE 59

Record Clock Mistakes Separately

Diagnose overspending, underspending, panic, and missed critical moments as distinct errors.

The searchable MASTER_ADVICE_INDEX.csv and MASTER_ADVICE_INDEX.html list every individual lesson across all twenty volumes.

FIVE-PART MODULE | ADVICE 0751-0755

Budget Time by Decision Difficulty

CORE INSTRUCTION

Spend more time on irreversible, tactical, and structurally critical choices than on routine moves.

WHY IT WORKS

Clock value is highest where analysis can alter the decision.

RECOGNITION CUES

Use throughout serious games.

BOUNDARY

A simple-looking move can hide tactics, so run the safety scan first.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0751 | MODULE 01 OF 10 | CORE ADVICE

Budget Time by Decision Difficulty - The Rule

COACH'S INSTRUCTION

Spend more time on irreversible, tactical, and structurally critical choices than on routine moves.

WHY IT IS LOGICALLY TRUE

Clock value is highest where analysis can alter the decision.

USE IT WHEN

Use throughout serious games.

BOUNDARY / FAILURE MODE

A simple-looking move can hide tactics, so run the safety scan first.

QUESTION AT THE BOARD

Is this a critical decision or a familiar continuation?

PRACTICAL DRILL

After each game, mark high-time moves and judge whether the position deserved it.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0752 | MODULE 01 OF 10 | RECOGNITION

Budget Time by Decision Difficulty - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use throughout serious games.

WHY IT IS LOGICALLY TRUE

Clock value is highest where analysis can alter the decision. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. A simple-looking move can hide tactics, so run the safety scan first.

QUESTION AT THE BOARD

Is this a critical decision or a familiar continuation?

PRACTICAL DRILL

Recognition drill: After each game, mark high-time moves and judge whether the position deserved it. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0753 | MODULE 01 OF 10 | BOARD USE

Budget Time by Decision Difficulty - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'Is this a critical decision or a familiar continuation?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Spend more time on irreversible, tactical, and structurally critical choices than on routine moves.

WHY IT IS LOGICALLY TRUE

Clock value is highest where analysis can alter the decision. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use throughout serious games.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. A simple-looking move can hide tactics, so run the safety scan first.

QUESTION AT THE BOARD

Is this a critical decision or a familiar continuation?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0754 | MODULE 01 OF 10 | EXCEPTIONS

Budget Time by Decision Difficulty - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: A simple-looking move can hide tactics, so run the safety scan first.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Clock value is highest where analysis can alter the decision.

USE IT WHEN

Use the normal rule under these conditions: Use throughout serious games. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: After each game, mark high-time moves and judge whether the position deserved it. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0755 | MODULE 01 OF 10 | TRAINING

Budget Time by Decision Difficulty - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Spend more time on irreversible, tactical, and structurally critical choices than on routine moves.

WHY IT IS LOGICALLY TRUE

Clock value is highest where analysis can alter the decision. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: A simple-looking move can hide tactics, so run the safety scan first.

QUESTION AT THE BOARD

Is this a critical decision or a familiar continuation?

PRACTICAL DRILL

After each game, mark high-time moves and judge whether the position deserved it. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0756-0760

Preserve a Reserve for the Finish

CORE INSTRUCTION

Keep enough time for late middlegame tactics and technical endings.

WHY IT WORKS

Early perfection is useless if later decisions become guesses.

RECOGNITION CUES

Use from move one.

BOUNDARY

A genuinely decisive early position deserves investment.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0756 | MODULE 02 OF 10 | CORE ADVICE

Preserve a Reserve for the Finish - The Rule

COACH'S INSTRUCTION

Keep enough time for late middlegame tactics and technical endings.

WHY IT IS LOGICALLY TRUE

Early perfection is useless if later decisions become guesses.

USE IT WHEN

Use from move one.

BOUNDARY / FAILURE MODE

A genuinely decisive early position deserves investment.

QUESTION AT THE BOARD

What minimum reserve do I want at move thirty?

PRACTICAL DRILL

Set clock checkpoints before games and record actual times.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0757 | MODULE 02 OF 10 | RECOGNITION

Preserve a Reserve for the Finish - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use from move one.

WHY IT IS LOGICALLY TRUE

Early perfection is useless if later decisions become guesses. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. A genuinely decisive early position deserves investment.

QUESTION AT THE BOARD

What minimum reserve do I want at move thirty?

PRACTICAL DRILL

Recognition drill: Set clock checkpoints before games and record actual times. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0758 | MODULE 02 OF 10 | BOARD USE

Preserve a Reserve for the Finish - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'What minimum reserve do I want at move thirty?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Keep enough time for late middlegame tactics and technical endings.

WHY IT IS LOGICALLY TRUE

Early perfection is useless if later decisions become guesses. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use from move one.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. A genuinely decisive early position deserves investment.

QUESTION AT THE BOARD

What minimum reserve do I want at move thirty?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0759 | MODULE 02 OF 10 | EXCEPTIONS

Preserve a Reserve for the Finish - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: A genuinely decisive early position deserves investment.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Early perfection is useless if later decisions become guesses.

PRACTICAL DRILL

Exception drill: Set clock checkpoints before games and record actual times. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0760 | MODULE 02 OF 10 | TRAINING

Preserve a Reserve for the Finish - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Keep enough time for late middlegame tactics and technical endings.

WHY IT IS LOGICALLY TRUE

Early perfection is useless if later decisions become guesses. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: A genuinely decisive early position deserves investment.

QUESTION AT THE BOARD

What minimum reserve do I want at move thirty?

PRACTICAL DRILL

Set clock checkpoints before games and record actual times. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0761-0765

Recognize Critical Moments

CORE INSTRUCTION

Slow down when the center changes, queens enter, sacrifices appear, or a major exchange is offered.

WHY IT WORKS

Irreversible transitions have large consequences and deserve a fresh evaluation.

RECOGNITION CUES

Use after surprising or forcing moves.

BOUNDARY

Not every capture is critical; assess how much the position will change.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0761 | MODULE 03 OF 10 | CORE ADVICE

Recognize Critical Moments - The Rule

COACH'S INSTRUCTION

Slow down when the center changes, queens enter, sacrifices appear, or a major exchange is offered.

WHY IT IS LOGICALLY TRUE

Irreversible transitions have large consequences and deserve a fresh evaluation.

USE IT WHEN

Use after surprising or forcing moves.

BOUNDARY / FAILURE MODE

Not every capture is critical; assess how much the position will change.

QUESTION AT THE BOARD

Will this decision change the structure, safety, or material permanently?

PRACTICAL DRILL

Review master games and pause only at structural transitions.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0762 | MODULE 03 OF 10 | RECOGNITION

Recognize Critical Moments - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use after surprising or forcing moves.

WHY IT IS LOGICALLY TRUE

Irreversible transitions have large consequences and deserve a fresh evaluation. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

PRACTICAL DRILL

Review master games and pause only at structural transitions. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0766-0770

Use Opponent Time Productively

CORE INSTRUCTION

Analyze their threats, your likely candidates, and the position's main problem while their clock runs.

WHY IT WORKS

Shared thinking time expands your effective budget.

RECOGNITION CUES

Use when the opponent is considering a non-forcing choice.

BOUNDARY

Do not calculate one reply so deeply that a surprise leaves you disoriented.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0766 | MODULE 04 OF 10 | CORE ADVICE

Use Opponent Time Productively - The Rule

COACH'S INSTRUCTION

Analyze their threats, your likely candidates, and the position's main problem while their clock runs.

WHY IT IS LOGICALLY TRUE

Shared thinking time expands your effective budget.

USE IT WHEN

Use when the opponent is considering a non-forcing choice.

BOUNDARY / FAILURE MODE

Do not calculate one reply so deeply that a surprise leaves you disoriented.

QUESTION AT THE BOARD

What remains useful regardless of their exact move?

PRACTICAL DRILL

In training games, write two likely opponent moves and your broad response during their turn.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0767 | MODULE 04 OF 10 | RECOGNITION

Use Opponent Time Productively - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use when the opponent is considering a non-forcing choice.

WHY IT IS LOGICALLY TRUE

Shared thinking time expands your effective budget. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Do not calculate one reply so deeply that a surprise leaves you disoriented.

QUESTION AT THE BOARD

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0771-0775

Set a Decision Deadline

CORE INSTRUCTION

Give yourself a stopping point after adequate candidate comparison and verification.

WHY IT WORKS

Unlimited reconsideration burns time without guaranteed accuracy.

RECOGNITION CUES

Use when looping through the same lines.

BOUNDARY

New tactical evidence justifies reopening the search.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0771 | MODULE 05 OF 10 | CORE ADVICE

Set a Decision Deadline - The Rule

COACH'S INSTRUCTION

Give yourself a stopping point after adequate candidate comparison and verification.

WHY IT IS LOGICALLY TRUE

Unlimited reconsideration burns time without guaranteed accuracy.

USE IT WHEN

Use when looping through the same lines.

BOUNDARY / FAILURE MODE

New tactical evidence justifies reopening the search.

QUESTION AT THE BOARD

Have I learned anything new in the last minute?

PRACTICAL DRILL

Track thought loops and practice deciding after one complete comparison cycle.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0772 | MODULE 05 OF 10 | RECOGNITION

Set a Decision Deadline - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use when looping through the same lines.

WHY IT IS LOGICALLY TRUE

Unlimited reconsideration burns time without guaranteed accuracy. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. New tactical evidence justifies reopening the search.

QUESTION AT THE BOARD

Have I learned anything new in the last minute?

PRACTICAL DRILL

Recognition drill: Track thought loops and practice deciding after one complete comparison cycle. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0773 | MODULE 05 OF 10 | BOARD USE

Set a Decision Deadline - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'Have I learned anything new in the last minute?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Give yourself a stopping point after adequate candidate comparison and verification.

WHY IT IS LOGICALLY TRUE

Unlimited reconsideration burns time without guaranteed accuracy. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use when looping through the same lines.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. New tactical evidence justifies reopening the search.

QUESTION AT THE BOARD

Have I learned anything new in the last minute?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0774 | MODULE 05 OF 10 | EXCEPTIONS

Set a Decision Deadline - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: New tactical evidence justifies reopening the search.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Unlimited reconsideration burns time without guaranteed accuracy.

USE IT WHEN

Use the normal rule under these conditions: Use when looping through the same lines. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

Have I learned anything new in the last minute?

PRACTICAL DRILL

Track thought loops and practice deciding after one complete comparison cycle. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0776-0780

Simplify the Process in Time Trouble

CORE INSTRUCTION

Use a compact scan: threat, forcing moves, loose pieces, safest candidate, final check.

WHY IT WORKS

A reduced routine protects the highest-value checks when time is scarce.

RECOGNITION CUES

Use below your planned reserve.

BOUNDARY

Do not abandon exact calculation in a forced tactical line.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0776 | MODULE 06 OF 10 | CORE ADVICE

Simplify the Process in Time Trouble - The Rule

COACH'S INSTRUCTION

Use a compact scan: threat, forcing moves, loose pieces, safest candidate, final check.

WHY IT IS LOGICALLY TRUE

A reduced routine protects the highest-value checks when time is scarce.

USE IT WHEN

Use below your planned reserve.

BOUNDARY / FAILURE MODE

Do not abandon exact calculation in a forced tactical line.

QUESTION AT THE BOARD

What is the minimum safe process for this move?

PRACTICAL DRILL

Play short timed positions using the five-step emergency routine.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0777 | MODULE 06 OF 10 | RECOGNITION

Simplify the Process in Time Trouble - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use below your planned reserve.

WHY IT IS LOGICALLY TRUE

A reduced routine protects the highest-value checks when time is scarce. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Do not abandon exact calculation in a forced tactical line.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. A reduced routine protects the highest-value checks when time is scarce.

USE IT WHEN

Use the normal rule under these conditions: Use below your planned reserve. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: Play short timed positions using the five-step emergency routine. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0780 | MODULE 06 OF 10 | TRAINING

Simplify the Process in Time Trouble - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Use a compact scan: threat, forcing moves, loose pieces, safest candidate, final check.

WHY IT IS LOGICALLY TRUE

A reduced routine protects the highest-value checks when time is scarce. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: Do not abandon exact calculation in a forced tactical line.

QUESTION AT THE BOARD

What is the minimum safe process for this move?

PRACTICAL DRILL

Play short timed positions using the five-step emergency routine. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

ADVICE 0781 | MODULE 07 OF 10 | CORE ADVICE

Avoid Instant Recaptures - The Rule

COACH'S INSTRUCTION

Spend a brief pause checking intermediate moves and alternative recaptures even when the answer looks forced.

WHY IT IS LOGICALLY TRUE

Automatic responses bypass the part of the tree where tactics often hide.

USE IT WHEN

Use after every capture unless in extreme time shortage.

BOUNDARY / FAILURE MODE

Truly forced recaptures need only a minimal verification.

QUESTION AT THE BOARD

What can I do before recapturing?

PRACTICAL DRILL

Add a three-second recapture pause to every training game.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0782 | MODULE 07 OF 10 | RECOGNITION

Avoid Instant Recaptures - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use after every capture unless in extreme time shortage.

WHY IT IS LOGICALLY TRUE

Automatic responses bypass the part of the tree where tactics often hide. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Truly forced recaptures need only a minimal verification.

QUESTION AT THE BOARD

What can I do before recapturing?

PRACTICAL DRILL

Recognition drill: Add a three-second recapture pause to every training game. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0783 | MODULE 07 OF 10 | BOARD USE

Avoid Instant Recaptures - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'What can I do before recapturing?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Spend a brief pause checking intermediate moves and alternative recaptures even when the answer looks forced.

WHY IT IS LOGICALLY TRUE

Automatic responses bypass the part of the tree where tactics often hide. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use after every capture unless in extreme time shortage.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. Truly forced recaptures need only a minimal verification.

QUESTION AT THE BOARD

What can I do before recapturing?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

ADVICE 0784 | MODULE 07 OF 10 | EXCEPTIONS

Avoid Instant Recaptures - Know When to Break It

COACH'S INSTRUCTION

Treat the advice as conditional, not as a commandment. Its main boundary is: Truly forced recaptures need only a minimal verification.

WHY IT IS LOGICALLY TRUE

Good principles compress experience, but concrete geometry decides the move. Automatic responses bypass the part of the tree where tactics often hide.

USE IT WHEN

Use the normal rule under these conditions: Use after every capture unless in extreme time shortage. Break it only when a calculated variation or clear contextual fact justifies the exception.

BOUNDARY / FAILURE MODE

An exception is not a feeling. State the tactical line, timing fact, or resulting position that makes the normal advice inferior.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: Add a three-second recapture pause to every training game. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

Avoid Instant Recaptures - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Spend a brief pause checking intermediate moves and alternative recaptures even when the answer looks forced.

WHY IT IS LOGICALLY TRUE

Automatic responses bypass the part of the tree where tactics often hide. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: Truly forced recaptures need only a minimal verification.

QUESTION AT THE BOARD

What can I do before recapturing?

PRACTICAL DRILL

Add a three-second recapture pause to every training game. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0786-0790

Use Increment Wisely

CORE INSTRUCTION

Complete a safe decision within the increment when possible instead of spending the entire reserve on routine moves.

WHY IT WORKS

Increment can stabilize the clock if your process fits inside it.

RECOGNITION CUES

Use in increment time controls.

BOUNDARY

Critical positions deserve reserve time beyond the increment.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0786 | MODULE 08 OF 10 | CORE ADVICE

Use Increment Wisely - The Rule

COACH'S INSTRUCTION

Complete a safe decision within the increment when possible instead of spending the entire reserve on routine moves.

WHY IT IS LOGICALLY TRUE

Increment can stabilize the clock if your process fits inside it.

USE IT WHEN

Use in increment time controls.

BOUNDARY / FAILURE MODE

Critical positions deserve reserve time beyond the increment.

QUESTION AT THE BOARD

Can I solve this move with my compact routine?

PRACTICAL DRILL

Practice ten-minute games with a fixed per-move process matched to the increment.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0787 | MODULE 08 OF 10 | RECOGNITION

Use Increment Wisely - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use in increment time controls.

WHY IT IS LOGICALLY TRUE

Increment can stabilize the clock if your process fits inside it. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Critical positions deserve reserve time beyond the increment.

QUESTION AT THE BOARD

Can I solve this move with my compact routine?

PRACTICAL DRILL

Recognition drill: Practice ten-minute games with a fixed per-move process matched to the increment. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0788 | MODULE 08 OF 10 | BOARD USE

Use Increment Wisely - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'Can I solve this move with my compact routine?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: Complete a safe decision within the increment when possible instead of spending the entire reserve on routine moves.

WHY IT IS LOGICALLY TRUE

Increment can stabilize the clock if your process fits inside it. A short routine converts understanding into an action that survives clock pressure.

USE IT WHEN

Use the routine when these conditions appear: Use in increment time controls.

BOUNDARY / FAILURE MODE

Do not execute the routine mechanically if the position is forced. Critical positions deserve reserve time beyond the increment.

QUESTION AT THE BOARD

Can I solve this move with my compact routine?

PRACTICAL DRILL

During one slow game, mark each moment this module appears. Record your candidates, the best reply you tested, and the endpoint you preferred.

MEMORY HOOK | Question -> candidates -> best reply -> endpoint.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0791-0795

Make Practical Choices Under Uncertainty

CORE INSTRUCTION

When objective evaluations are close, choose the line with clearer plans and manageable risk.

WHY IT WORKS

Your probability of finding future moves matters to real results.

RECOGNITION CUES

Use when calculation cannot fully resolve the position.

BOUNDARY

Do not prefer comfort over a clearly superior forced line.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0791 | MODULE 09 OF 10 | CORE ADVICE

Make Practical Choices Under Uncertainty - The Rule

COACH'S INSTRUCTION

When objective evaluations are close, choose the line with clearer plans and manageable risk.

WHY IT IS LOGICALLY TRUE

Your probability of finding future moves matters to real results.

USE IT WHEN

Use when calculation cannot fully resolve the position.

BOUNDARY / FAILURE MODE

Do not prefer comfort over a clearly superior forced line.

QUESTION AT THE BOARD

Which position can I navigate accurately with my remaining time?

PRACTICAL DRILL

Compare engine-equal options by complexity and play both against a training partner.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0792 | MODULE 09 OF 10 | RECOGNITION

Make Practical Choices Under Uncertainty - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use when calculation cannot fully resolve the position.

WHY IT IS LOGICALLY TRUE

Your probability of finding future moves matters to real results. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. Do not prefer comfort over a clearly superior forced line.

QUESTION AT THE BOARD

Which position can I navigate accurately with my remaining time?

PRACTICAL DRILL

Recognition drill: Compare engine-equal options by complexity and play both against a training partner. Name the cue before calculating the answer.

MEMORY HOOK | Cue first; candidate second; proof last.

ADVICE 0793 | MODULE 09 OF 10 | BOARD USE

Make Practical Choices Under Uncertainty - Use It at the Board

COACH'S INSTRUCTION

Use a three-step board routine: ask 'Which position can I navigate accurately with my remaining time?' Generate two serious candidates, then test each against the opponent's best forcing reply. Apply this instruction: When objective evaluations are close, choose the line with clearer plans and manageable risk.

PRACTICAL DRILL

Compare engine-equal options by complexity and play both against a training partner. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

FIVE-PART MODULE | ADVICE 0796-0800

Record Clock Mistakes Separately

CORE INSTRUCTION

Diagnose overspending, underspending, panic, and missed critical moments as distinct errors.

WHY IT WORKS

Time use is a trainable decision skill, not just a personality trait.

RECOGNITION CUES

Use during post-game review.

BOUNDARY

A long think may be justified even if the move was wrong.

NEXT: five separate lessons turn this idea into an over-the-board habit.

ADVICE 0796 | MODULE 10 OF 10 | CORE ADVICE

Record Clock Mistakes Separately - The Rule

COACH'S INSTRUCTION

Diagnose overspending, underspending, panic, and missed critical moments as distinct errors.

WHY IT IS LOGICALLY TRUE

Time use is a trainable decision skill, not just a personality trait.

USE IT WHEN

Use during post-game review.

BOUNDARY / FAILURE MODE

A long think may be justified even if the move was wrong.

QUESTION AT THE BOARD

Was the error the move, the time allocation, or both?

PRACTICAL DRILL

Keep a clock journal for twenty games and find the dominant pattern.

MEMORY HOOK | Name the reason before trusting the rule.

ADVICE 0797 | MODULE 10 OF 10 | RECOGNITION

Record Clock Mistakes Separately - How to Notice It

COACH'S INSTRUCTION

Look for this trigger cluster before choosing a move: Use during post-game review.

WHY IT IS LOGICALLY TRUE

Time use is a trainable decision skill, not just a personality trait. Recognition is the gateway: advice noticed only after the game cannot guide the decision.

USE IT WHEN

Run the cue scan after the opponent's move and again when your evaluation changes or no candidate feels convincing.

BOUNDARY / FAILURE MODE

A cue starts an investigation; it does not prove a move. A long think may be justified even if the move was wrong.

QUESTION AT THE BOARD

What exact feature would justify breaking this advice here?

PRACTICAL DRILL

Exception drill: Keep a clock journal for twenty games and find the dominant pattern. Then create or find one contrasting position where the normal advice fails, and explain why.

MEMORY HOOK | Principles guide attention; concrete chess decides.

ADVICE 0800 | MODULE 10 OF 10 | TRAINING

Record Clock Mistakes Separately - Make It Automatic

COACH'S INSTRUCTION

Turn this instruction into a retrievable habit: Diagnose overspending, underspending, panic, and missed critical moments as distinct errors.

WHY IT IS LOGICALLY TRUE

Time use is a trainable decision skill, not just a personality trait. Spaced recall and position practice make the idea available during a real game instead of merely familiar on the page.

USE IT WHEN

Train first without a clock, then with a generous limit, and finally inside slow games where the theme is not announced.

BOUNDARY / FAILURE MODE

Accuracy comes before speed. Also preserve the idea's boundary: A long think may be justified even if the move was wrong.

QUESTION AT THE BOARD

Was the error the move, the time allocation, or both?

PRACTICAL DRILL

Keep a clock journal for twenty games and find the dominant pattern. Retest the same skill after 1, 3, 7, 14, and 30 days; require both the move and the explanation.

MEMORY HOOK | What you retrieve is what you can use.

RETRIEVAL TEST

Can you coach yourself through all ten modules?

01 Budget Time by Decision Difficulty

Is this a critical decision or a familiar continuation?

02 Preserve a Reserve for the Finish

What minimum reserve do I want at move thirty?

03 Recognize Critical Moments

Will this decision change the structure, safety, or material permanently?

04 Use Opponent Time Productively

What remains useful regardless of their exact move?

05 Set a Decision Deadline

Have I learned anything new in the last minute?

06 Simplify the Process in Time Trouble

What is the minimum safe process for this move?

07 Avoid Instant Recaptures

What can I do before recapturing?

08 Use Increment Wisely

Can I solve this move with my compact routine?

09 Make Practical Choices Under Uncertainty

Which position can I navigate accurately with my remaining time?

10 Record Clock Mistakes Separately

Was the error the move, the time allocation, or both?

Pass standard: state the core advice, explain the causal reason, name one exception, and apply the board question to a fresh position.
